Business Activity Compilation

Structure of consolidation group

In 2021, the entity was engaged in development of Ülemiste City office space, including construction of new buildings and renovation of existing buildings, renting premises, providing tenants with necessary services and developing these services, preparing new real estate projects.

Alma Tomingas office building with a leasable area of 16.5 thousand m² is under construction, the completion date of which is the end of 2022. This building will be next step on the way to the increasingly human-friendly Ülemiste City.

At the same time, we are designing a new educational complex with mobility and green areas for the growing schools in the town - Emil School and Tallinn International School - and for Kalli-kalli kindergarten. We are designing a new educational complex in cooperation with the architects of Kolm Pluss Üks OÜ. The development of an educational cluster from kindergarten to higher education is a prerequisite for attracting talent.

January - March 2021

As of February 12, Ursel Velve, who has been the Chief Innovation Officer of the largest business campus in Baltics in recent years, replaced Margus Nõlvak, as the Chairman of the Board of Mainor Ülemiste. Velve, who holds a Master's degree in International Marketing from the University of Liverpool, has been a member of the Board of Mainor Ülemiste since 2015. In 2017, she became the company's development manager and in 2019 started as the Chief Innovation Officer of Ülemiste City. Teet Raudsep, the company's long-term Customer Experience Manager, also joined the Management Board. He worked for Telefonica International before joining Mainor.

The training credit program implemented by the developers of Ülemiste City Mainor AS, Mainor Ülemiste AS and Technopolis Ülemiste AS brings together Ülemiste City companies and the largest universities in Estonia. During the year the community will be offered more than 200 different free trainings with a monetary value of up to 150,000 euros. The aim is to encourage employees of companies to participate in the training offered by higher education institutions, while expanding cooperation between companies and educational institutions in the field of research, consulting, and other development areas.

The Future City professorship, born in cooperation with the developers of Ülemiste City – Mainor AS, Mainor Ülemiste AS and Technopolis Ülemiste AS and TalTech, the City of Tallinn, Ericsson Eesti AS and Telia AS won the title of Quality Deed of the Year 2020 issued by the Estonian Quality Association. The award was given for a holistic and innovative approach in promoting education in collaboration between the private and public sectors to address wider issues that have a much wider impact than just the organizations involved.

AS Elcogen signed a contract with Mainor Ülemiste to develop a production unit 50 times larger than the existing plant and to become the world's leading producer of solid oxide fuel cells. Construction of the 10,000 m² production unit will begin in the summer of 2021. Construction is expected to take 12 months at an estimated cost of 6.3 million euros. Elcogen will invest an additional 20 million euros in the equipment of the production unit.

Ülemiste City developers Technopolis Ülemiste AS and Mainor Ülemiste AS, together with the energy group Utilitas, are investing 11 million euros to connect the campus to an efficient district heating and cooling network and to give up heating with fossil gas completely. The first phase of the construction will be completed by the autumn of this year, and by the end of 2022, the entire city will be ready for connection.

April -June 2021

Ülemiste City, the largest and fastest growing business campus in the Baltics, has undergone a brand renewal and wants to grow into the gateway of Estonia. Over the next five years, the airport, Rail Baltic and bus terminals, as well as the FinEst tunnel, will become one entity, creating fast and convenient connections all over the world. You can reach Helsinki in 30 minutes and Pärnu in 40 minutes, Riga and St. Petersburg in 2-3 hours. Every day, it will bring nearly 100,000–150,000 people here and make Ülemiste Estonia's gateway and gateway from Estonia to the world.

Mainor Ülemiste AS has completed a private placement of EUR 5 million unsecured bonds with maturity of five years. Investors subscribed bonds for a total of EUR 6,057,000 which means that the initial issue volume was oversubscribed by 1.2 times. New development projects include the talent-centric and green Alma Tomingas office building, which is already under construction, an educational complex inviting to move and study, and a new smart production building for fuel cell company Elcogen, which construction will start in the second half of this year.

New unsecured bonds issued by Mainor Ülemiste were listed on the Baltic First North Market by Nasdaq Tallinn as of June 11, 2021.

The uniquely designed and talent centric work environment of the Alma Tomingas office building, developed by Mainor Ülemiste, attracts brands with global reach, such as technology giant Fujitsu and Skeleton, which aspires to be the next unicorn. The building has been built in collaboration with architects, service designers, researchers from the University of Tartu, as well as urban strategists, arborists, indoor climate-, LEED- and digital nomad experts, making it one of the most thoughtful and talent-focused work environments in Estonia and Europe.

According to a recent survey, Ülemiste City has passed Pärnu and Narva last year and has become the third largest economy in Estonia after Tallinn and Tartu in terms of labor tax receipts from commercial companies. The export of companies and the development of the IT cluster remain on a clear upward trend. Ülemiste City IT companies account for as much as 1/3 of the total exports of the Estonian IT sector. The next goal is to grow bigger than Tartu.

As of 30.06.2020 a total of 18 people were employed by Mainor Ülemiste AS, with a total salary of 388 thousand euros (30.06.2019: 354 thousand euros), of which salary expenses to members of the board and management consisted of 113 thousand euros (30.06.2020: 107 thousand euros).

Note 26. Income tax

The company's retained earnings as of 30.06.2021 amounted 99,586 thousand euros (31.12.2020: 97,632 thousand euros). As of the 1 January 2019 according to the income tax law (TuMS) § 4 lg 5 ja § 50¹ lower tax rate 14% (14/86) applies to dividends paid on a regular basis. Thus, a resident company can be subject to a lower tax rate of 14/86 and a standard rate of 20/80 for the taxation of dividends. The maximum income tax liability that would arise if all of the undistributed profits were distributed would be 19,917 thousand euros (31.12.2020: 19,526 thousand euros), therefore the net dividend that could be paid out is 79,669 thousand euros (31.12.2020: 78,106 thousand euros). Mainor Ülemiste AS did not pay income tax on dividends paid in the first half of 2021, as the amount of dividends paid was equal to the dividends received from the associated company. Mainor Ülemiste AS accounted for an additional income tax of 22 thousand euros on dividends paid in the first half of 2020.
