

## **Anoto Unveils 55" 4K Interactive Anoto Live Display for Business Collaboration at ISE 2016**

*Leader in multi-surface digital writing and drawing solutions combines best of projected capacitive touch with high-precision digital pen input*

**LUND, Sweden & AMSTERDAM, Netherlands – February 8<sup>th</sup>, 2016** – Anoto Group AB, a global leader in digital writing and drawing solutions, today announced the first in a new line of Anoto Live Displays, a 55-inch 4K resolution display with projected capacitive touch technology and support for high-precision digital pen input. Unveiled at Integrated Systems Europe 2016 (ISE), the new line of displays addresses market demand for interactive display technologies in the enterprise that enhance business collaboration and productivity. The large format Anoto Live Display line is a cornerstone of Anoto's multi-surface digital writing and drawing platform, spanning pen and stylus input that can be used on any surface, from traditional paper to whiteboards and 24-foot interactive walls.

"Over the past few quarters, we've established an important entry into the consumer market with our Livescribe acquisition, continued to build our portfolio in the Documents and Data Capture arena, and completed additional acquisitions that allow us to integrate interactive walls, and more into our expanding platform," states Stein Revelsby, CEO, Anoto. "Not only are we set to challenge Microsoft Surface Hub with our latest solution, we're expanding the capabilities of our entire portfolio with both hardware and software integration that makes writing and drawing seamless across devices, no matter what your preferred input method or device."

The product of a collaboration with Cima NanoTech, the high resolution interactive displays implements Anoto Enabled Touch Systems that integrate the company's SANTE<sup>®</sup> Technology, an innovation in multi-touch display capabilities. Anoto Live Displays achieve multiple innovations unmatched in the current marketplace, including high precision active pen input, ultra-responsive multi-touch technology and a scratch resistant 4K resolution screen that also features a UC agnostic modular design to customize camera and audio solutions (Lync, Cisco, Zoom, etc.) and the flexibility to work with any standard software application. The first Anoto Live Display in the 55-inch size will open for pre-orders soon, with initial shipments to customers projected for Q2 2016.

Key features of the Anoto Live Display include:

- High precision active pen input
- Touch technology with superior accuracy
- Robust design and scratch resistant
- 4K resolution with brilliant colors
- Compatible with active precision pens and paper
- Works with passive or active pens and finger tips
- Create, edit and save any documents in their native format
- No special drivers required
- UC agnostic (Lync<sup>®</sup>, Cisco<sup>®</sup>, Zoom, etc.) modular design to customize camera and audio solutions

**About Anoto Group AB**

Anoto is a global leader in digital writing and drawing solutions. Its technology platform and branded products enable high-precision pen or stylus input on nearly any surface --- from capturing and digitizing handwritten notes and business forms on paper to designing, creating and collaborating directly on large interactive displays, whiteboards, and walls up to 24 feet. Anoto, its strategic licensing partners, and developer community offer a broad portfolio of products, applications and services to business, consumer and education markets, including best-in-class digital note-taking, creative solutions, collaborative solutions, classroom learning solutions, and document processing & management. The Anoto Group has over 150 employees and is headquartered in Lund (Sweden), with offices in Norrköping (Sweden), Basingstoke, Guildford and Wetherby (UK), Los Angeles, San Francisco, and Boston (US) and Tokyo (Japan). Anoto's Livescribe brand is the leading maker of smartpens, which bring notes, words, & ideas to life by connecting pen & paper to the digital world. Anoto is traded on the Small Cap list of NASDAQ OMX Stockholm under ANOT. For more information about Anoto or Livescribe, please visit [www.anoto.com](http://www.anoto.com)
