### **New 2% bond with interest-only option**

Nykredit/Totalkredit is opening a new 30Y fixed-rate 2% bond with an interest-only option.

For the purpose of the change of maturity class at end-August 2017, Nykredit/Totalkredit has opened a 2.5% bond with an interest-only option, but due to the recent price increases, the price is above 100, which makes the bond ineligible for loan offers.

A 2% bond will therefore now be opened in order to meet the demand for 30Y fixed-rate loans with interest-only options.

The bonds will be funding new lending by Totalkredit A/S and Nykredit Realkredit A/S.
