

ATLANTIC PETROLEUM

P/F ATLANTIC PETROLEUM

CONDENSED CONSOLIDATED INTERIM REPORT

FOR THE 9 MONTHS ENDED 30th SEPTEMBER 2017

TOWARDS PRODUCTION REVENUE

Atlantic Petroleum has been continuing to rationalise the portfolio and has succeeded in securing potentially significant value from the Orlando asset as well as being able to recover money from the sale of the Norwegian activities that completed earlier in the year.

Atlantic Petroleum received a tax refund in Norway of NOK 22.9MM that has enabled the company to reduce the bank debt significantly. This is a post balance sheet event, as the payment happened in November.

On Orlando, Atlantic Petroleum has received an update from the operator at the end of Q3 saying that the project is on track to deliver first oil by the end of 2018. Atlantic Petroleum will receive a 2% revenue share from Orlando production until Orlando has produced 5 million barrels of oil and 4.35% of the gross field revenue after that. This should secure a strong cashflow to Atlantic Petroleum from 2018 when Orlando is expected to start production and in the years to follow.

The loan agreement with London Oil and Gas was completed in March 2017. This means that the company has the means to expand into new areas and assets.

Graeme Fawcett has been appointed new Interim CEO for the Atlantic Petroleum from 1st December.

The focus for the board and the new Interim CEO is to evaluate the strategic options Atlantic Petroleum has including M&A options or a sale of the company. The board is encouraged by the improving market conditions and looks forward to benefit from Graeme's wealth of experience, and looks forward to updating the market further when Graeme Fawcett takes up his position.

HIGHLIGHTS & OUTLOOK

Atlantic Petroleum has realised the tax value of the tax loss carry forward from the cessation of its Norwegian activities in November 2017 amounting to NOK 22.9MM that went toward reducing the groups' bank debt. The bank debt was DKK 68.3MM at the end of Q3 and it has now been reduced to DKK 51.6MM.

Highlights for the first 9 months 2017 were:

Net loss was DKK 9.6MM

Gross profit was DKK 6.6MM

Operating loss was DKK 4.3MM

Net assets/share-holders equity was negative DKK 90.2MM

Bank debt was DKK 68.3MM.

G&A cost was DKK 2.6MM

Atlantic Petroleum completed a loan agreement with London Oil & Gas 13th March 2017 for GBP 8MM. The loan is a convertible loan with a strike price of DKK 15 per share. The loan will ensure the funds needed to run the company for the next 2 years and will provide funds for expanding the portfolio. As a result of the sale of Pegasus in 2015 with contingent payments due; Atlantic Petroleum UK Limited expects to receive future cash inflows from the UK North Sea and Atlantic Petroleum North Sea Limited has realised value from a sale of Orlando. The company seeks to secure further value from the remaining assets in the UK and Ireland. Beyond that the company will re-focus its business and take advantage of the current downturn in the market to seek new opportunities in Europe and the Eurasian Economic Union.

Atlantic Petroleum expects to show a net profit for the full year 2017.
