**K2 LT, AB ANNUAL REPORT  
FOR A TWELVE-MONTH PERIOD ENDED ON DECEMBER 31, 2017**

**General information**

Name	K2 LT, AB
Legal form	Public limited liability company
Date of registration and register	May 19, 2015, Register of Legal Entities (from 07/10/2008 to 19/05/2015 the legal form was private limited liability company)
Legal person identification code	301950535
Manager of register for legal entities	Centre of registers, SE
Authorised capital	EUR 278,827
Address of headquarters	Metalistų g. 3, Kėdainiai
Tel.no.	+ 370 347 55560
Fax no.	+ 370 347 55560
E-mail address	info@rekviem.lt
Website	www.rekviem.lt

K2 LT, UAB was registered on October 7, 2008. Until 14/04/2015 the registered address of the Company was M. Počobuto g. 4, Vilnius. As of 14/04/2015 the address was changed to Metalistų g. 3, Kėdainiai.

Shareholders of the Company include both natural and legal persons. The Company has neither subsidiaries, nor associates.

At the end of 2016 the Company employed 9 people and as at December 31, 2017 – 16 people.

Financial year of the Company coincides with the calendar year.

On May 19, 2015 private limited liability company K2 LT was reregistered as a public limited liability company K2 LT. Following the decision of the general shareholders' meeting of March 30, 2015, the authorised capital of the Company was converted into euros and increased from EUR 226,222 to EUR 226,519. Following the decision of the general shareholders' meeting of April 22, 2015, the authorised capital was increased from EUR 226,519 to EUR 278,827 by issuing 52,308 new units of shares with nominal value of EUR 1 and an emission price of EUR 23 each.

**Operations of the Company in 2017**

Operating activity of the Company is crematorium services. In 2017 K2 LT, AB generated EUR 1,325,633 of revenue, i.e. 2.9 % more than in 2016, and executed 3,758 cremations, which is 1.4 % less than in 2016.

Net financial year result – net profit – is EUR 303,612 (EUR 501,866 the previous year). Decrease in profit resulted from increase in operating costs. This is in turn related to implementation of new company strategy and expanded operation scope. As of August 2017 the Company works with a new trademark *Rekviem*. This trademark is used in transportation and funeral organization services.

**Business Environment**

The Company holds an exclusionary position in the market of cremation services in the territory of Lithuania. This market has high entrance barriers:

- Legal  
Pursuing cremation activities requires a licence, which is issued only to crematoriums that are already built. Operations have to correspond to all environmental protection requirements in Lithuania and EU. As of 2015 such constructions are only permitted in a land plot of commercial purpose.

- **Environmental**  
Lithuanian environment protection laws are one of the strictest in the EU. Technology of the crematorium has to correspond to all environmental pollution and emission requirements. To be able to follow these requirements a larger initial investment into a project is required.
- **Psychological**  
This is still the toughest barrier to overcome. The society is still highly hostile with regard to cremation services being provided in a close distance to residential environment. It is very difficult to find a land plot that would not be subject to any conflicts of interest.
- **Administrative**  
So far as cremation is not considered a regular way of burial, receiving permission for building a crematorium from the local authority is complicated. By providing permissions to community-sensitive projects authorities risk losing their popularity.

It would take approximately 2 years to build a crematorium, considering that the project is developed in accordance with a plan and with all required permissions, as well as support from authorities and community.

#### **Staff**

As at December 31, 2017 the Company employed 16 people, including the director Vytenis Labanauskas. The number of employees gradually increased starting with 2017 due to new services in supply.

At the end of the year employees of the Company included a deputy director for production, a project manager, two funeral organizers, three administrators, three crematorium operators, four drivers and a cleaning lady. In order to work with KE400 equipment operators must have a certificate issued by the equipment producer IFZW.

#### **Annual Financial Statements**

Financial statements for the period January – December 2017 were audited by Moore Stephens Vilnius UAB and are provided separately (attached).

#### **Significant Transactions**

**The Company acquired two cargo vehicles during the reporting period and they are both adapted for human remains transfer (total non-current asset value is EUR 73,739).**

#### **Acquisition and Transfer of the Company's Shares**

As of May 11, 2015 shares of K2 LT, AB are traded in the securities market *NASDAQ OMX Vilnius*, electronic trade system *First North*.

At the end of reporting period the Company had over 120 shareholders, both natural and legal persons.

#### **Acquired and Transferred Shares**

The Company did not acquire shares of other companies during the reporting period of 2017.

#### **Subsidiaries**

The Company did not establish any subsidiaries or affiliates during the reporting period of 2017.

#### **The Company's Operational Plans and Forecasts**

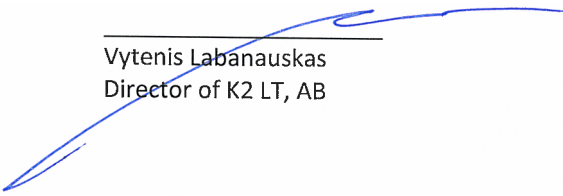

In 2018 the Company is planning to continue its active work in providing funeral-related services and developing partner cooperation. This year we expect to execute 4,300 cremations, organize 300 funeral ceremonies and reach the turnover of 1.56 million euros. This information shall be updated in July of 2018.

On November 21, 2017 the Government registered the draft of amendments to articles 2, 6, 7, 11, 20, 22 and 32 of the Law on the Burial of the Human Remains of the Republic of Lithuania, as well as a supplement with article six, for the consideration of Seimas (parliament) of the Republic of Lithuania. This law draft foresees changes related to the order for transferring human remains to foreign countries. Consideration of the law draft is foreseen

to take place in Seimas of the Republic of Lithuania in the spring session of the current year. Presented amendments shall not result in essential changes in the market and if the law establishes a controlling responsible authority and approves administrative liability margins, abusing legal uncertainties and undertaking illegal operations shall become more complicated.

In 2017 the Municipality of Vilnius adopted the decision concerning the cremation of single people or people, the remains of who family members or relatives refuse to accept and bury. K2 LT did not take part in this public procurement since it did not correspond to procurement requirements. However, this is a positive first step since for the first time all funeral-related costs and other related costs attributable to the municipality were assessed instead of only assessing direct burial costs. We hope this shall become a precedent to other municipalities and encourage a more detailed assessment of costs related to burial and gravesite maintenance, as well as choosing an optimal way of burial.

K2 LT continues to actively assess land plots suitable for crematorium building in Vilnius and expects to start designing and construction works already this year. The Company is also progressively taking interest in possible objects in other big cities, where all funeral services could be provided.

---

Vytenis Labanauskas  
Director of K2 LT, AB

## INDEPENDENT AUDITOR'S REPORT

To the Shareholders of K2 LT, AB

### Opinion

We have audited the financial statements of K2 LT, AB (the Company), which comprise the balance sheet as at December 31, 2017, and the profit (loss) statement, statement of cash flows, statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements *present fairly, in all material respects*, the financial position of the Company as at December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with the Business Accounting Standards.

### Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (the ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of this report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants (the IESBA code) issued by the International Ethics Standards Board for Accountants and the requirements of the Republic of Lithuania Law on Audit in relation with audit in the Republic of Lithuania. We have also fulfilled our other ethical responsibilities in accordance with the Republic of Lithuania Law on Audit and the IESBA code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The other information comprises the [information included in the annual report, but does not include the financial statements and our auditor's report thereon. Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon, except for what is indicated hereafter.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

We are also obligated to assess whether the financial information in the Company's annual report corresponds to the financial statements of the same financial year and whether the annual report was prepared following the applicable legal requirements. In our opinion, based on the work completed in the course of the financial statement audit, in all material respects:

- Financial information in the Company's annual report corresponds to the information in the financial statements of the same financial year; and
- The annual report of the Company was prepared in accordance with the requirements of the Law on Financial Statements of Entities of the Republic of Lithuania.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for preparation and fair presentation of these financial statements in accordance with the Business Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Moore Stephens Vilnius UAB

LT-08234 Vilnius Lietuva

T +370 (5) 268 5929

E admin@moorestephens.lt

[www.moorestephens.lt](http://www.moorestephens.lt)

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the ISAs, we exercised professional judgement and maintained professional scepticism throughout the planning and performance of the audit. We also:

- Identified and assessed the risks of material misstatement of the financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluated the appropriateness of the accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Made a conclusion concerning the appropriateness of use of going concern basis of accounting and whether, based on the evidence obtained, material uncertainty exists related to events or conditions that may cast significant doubts on the Company's ability to continue as a going concern. If we conclude that this material uncertainty exists, we are required to draw attention in the auditor's report to related disclosures in the financial statements, or, if these disclosures are insufficient, we are required to modify our opinion. Our conclusions are based on the audit evidence obtained before the date of auditor's report. Future events or conditions may determine that the Company will not be able to continue as a going concern.
- Evaluated the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Financial statements for the period ended on December 31, 2017

(All amounts are presented in Euros, unless indicated otherwise)

Approved in the General Shareholders' Meeting

On \_\_\_\_\_, 2018, Minutes No. \_\_\_\_\_

## EXPLANATORY NOTES

### General Information

K2 LT, AB was registered on October 7, 2008. Up until April 14, 2015 the registered address of the Company was M. Počobuto str. 4, Vilnius. As of April 14, 2015 it was changed to Metalistų str. 3, Kėdainiai.

Operating activity of the Company is the crematorium services.

Shareholders of the Company include both legal and natural persons. The Company has no subsidiaries or associates.

Average number of Company's employees was 15 in 2017 and 9 in 2016.

Financial year of the Company coincides with the calendar year.

On May 19, 2015 private limited liability company K2 LT was reregistered as a public limited liability company K2 LT. Following the decision of the general shareholders' meeting of March 30, 2015, the authorised capital of the Company was converted into euros and increased from EUR 226,222 to EUR 226,519. Following the decision of the general shareholders' meeting of April 22, 2015, the authorised capital was increased from EUR 226,519 to EUR 278,827 by issuing 52,308 new units of shares with nominal value of EUR 1 and an emission price of EUR 23 each.

### Accounting Policy

#### (a) Basis for Accounting

The financial statements of the Company are prepared in accordance with the legal acts of the Republic of Lithuania regulating financial accounting and financial reporting and the provisions of Business Accounting Standards, effective on January 1, 2017.

When managing the accounting records and preparing the financial statements the Company follows the general accounting principles: entity, going concern, periodicity, consistency, monetary measure, accrual, comparison, prudence, neutrality and content materiality.

The financial statements are prepared on the basis of accrual and going concern principles. According to the accrual principle the impact of transactions and other events is acknowledged when it occurs and is registered in the accounting records and presented in the financial statements of a related period. The financial statements are prepared assuming the Company has no intentions or necessity to be liquidated or to significantly reduce the scope of activity.

#### (b) Intangible Assets

Non-current intangible assets are identified as non-monetary assets with no material form, upon using them for over a year the Company expects direct and (or) indirect economic benefit and their acquisition (production) cost is at least EUR 500.

**K2 LT, AB**

Company code 301950535 Address: Metalistų g 3, Kėdainiai.  
Data preserved in the Centre of Registers, SE, Register of Legal Entities

**Financial statements for the period ended on December 31, 2017**

(All amounts are presented in Euros, unless indicated otherwise)

In the accounting records intangible assets are registered at acquisition (production) cost. Acquisition cost of intangible asset includes amount of money paid or payable upon acquisition, including customs fees and other non-refundable taxes. Asset acquisition cost also includes other direct expenses of preparation for use. Expenses on intangible asset's update and improvement, incurred after its acquisition or production, are recognized as costs of the period they were incurred in.

In the balance sheet intangible assets are presented at balance value, i.e. acquisition (production) cost less the accumulated amortization and impairment in value plus any reversals on impairment. Amortization of intangible assets is calculated by applying directly proportional (straight-line) method throughout the total useful life period:

Computer software	3 years
Licences, patents, other acquired rights	3 years

**(c) Non-current Tangible Assets**

The Company classifies assets as non-current tangible, when they provide direct and (or) indirect economic benefit, are used for over one year and have an acquisition (production) cost of at least EUR 500, and the risk related to tangible assets is transferred to the Company.

Non-current tangible assets are registered in the accounting records at acquisition (production) cost, which comprises amount paid or payable for those assets upon acquisition, transportation costs, paid non-refundable taxes, costs of designing, mounting, installing and other expenses related to the acquisition and preparation for use of those assets. Acquisition cost of non-current tangible assets does not include non-refundable value added tax. It is recognised as operating costs of the period in which those assets were acquired.

Reconstruction and repair costs incurred on non-current tangible assets are recognised as costs of the reporting period they were incurred in.

Non-current tangible assets presented in the financial statements are measured at actual acquisition (production) cost less the accumulated depreciation and impairment in the asset value plus reversal on impairment in value.

The Company applies a directly proportional (straight-line) method to calculate the non-current tangible asset depreciation. Separate groups of non-current tangible assets have different depreciation rates approved:

Asset group	Average useful life period (in years)
Buildings and constructions	25
Plant and machinery	6
Transport means	6
Other fixtures, fittings, tools and equipment	4
Other tangible assets (computers)	3

Non-current tangible asset depreciation is calculated from the first day of the following month after the exploitation was started. Calculation of depreciation is discontinued on the first day of the following month after the asset is written-off, transferred or otherwise disposed of. Depreciable asset value is estimated by subtracting liquidation value, which is equal to EUR 1 for all non-current tangible asset objects, from asset acquisition (production) cost.

**Financial statements for the period ended on December 31, 2017**

(All amounts are presented in Euros, unless indicated otherwise)

Lease is recognised as financial lease when according to lease terms all risks and benefits related to the ownership of the asset are basically transferred to the Company. Accounting for leased assets is the same as for owned assets. Interest and other borrowing costs are recognised as financial costs of the period they were incurred in.

Profit or loss accumulated after transferring non-current tangible asset is calculated by comparing received income with the carrying value of that asset. Result of the transaction is recognised in the profit (loss) statement in the item of income or costs from other activities.

The Company's unused depreciated assets are written-off. Non-current tangible assets no longer used in the operations of the Company and intended for sale are included in the balance sheet item of inventories.

At the end of each reporting year the Company conducts a stocktaking of non-current tangible assets. Balance value of every single asset unit is reviewed to determine its impairment. If impairment is detected, the asset's recoverable value is calculated. Recoverable value of an asset is the higher of the two values: net realizable value or asset exploitation value. Losses of asset impairment are recognised when the carrying value of an asset unit exceeds the asset's recoverable value. Losses incurred due to impairment are recognised in the profit (loss) statement.

**(d) Financial Assets**

Financial assets include cash and cash equivalents, amounts receivable, provided loans and investments intended for sale.

Financial assets are registered in the accounting records when the Company receives or, on the basis of an executed contract, acquires the right to receive cash or other financial asset. Amounts receivable are recognised at acquisition cost less the losses of impairment in value. Cash and cash equivalents are recognised at acquisition cost. Provided loans are initially recognised at acquisition cost and are subsequently registered at amortized cost.

Investments intended for sale are investments that the Company acquired with intention to sell or in seeking to benefit from short-term fluctuations in investment price. Investments intended for sale are measured at acquisition cost upon their acquisition, subsequently at each financial statement date they are recognised at fair value.

If it is likely that the Company will not be able to recover amounts receivable, a loss of impairment in value is recognised and it is calculated as a difference between asset value and current value of future cash flows discounted applying the effective interest rate.

**(e) Inventories**

In the financial statements inventories are measured at acquisition (production) cost or net realizable value, depending on which one is lower. Net cost is calculated following the FIFO method. Net cost of inventories includes purchase price, adjusted by amounts of inventory devaluation and received discounts, related charges, fees, transportation, preparation for use and other expenses directly related to acquisition of inventories. Net realizable value is an estimated sales price under regular business conditions less the estimated production completion and possible sales costs.

Expenses incurred when pursuing the order of a client are capitalised and reflected in the item of work in progress until the related income is recognised.

---

Losses of impairment in the value of inventories are recognised as operating costs and the reversal of losses of impairment in the value of inventories reduces the operating costs of the reporting period.

(f) Amounts Receivable

Amounts receivable are initially measured at acquisition cost. Subsequently current amounts receivable are recognised after assessing their impairment in value. A debt that has a payment term overdue for over four months is considered doubtful until the procedure of its recovery is in course. Doubtful debts are recognised as operating costs of the reporting period. Recovery of previously recognised doubtful debts reduces the doubtful debt costs of the reporting period.

Transaction of transfer of amount receivable (debt) (factoring without regress right) is considered a sale of debts and they are written off at once. If the debt transfer does not foresee transfer of risks and the debt buyer can waive the transaction, it is registered as a borrowing guaranteed by pledge.

(g) Cash and Cash Equivalents

Cash includes cash on hand and in bank accounts. Cash equivalents are liquid investments readily convertible into a known amount of cash. Usually the term of those investments does not exceed three months and the risk of change in value is very insignificant.

In the cash flow statement cash and cash equivalents comprise cash on hand, in bank accounts and current term deposits. Received dividends are attributed to investing activities in the cash flow statement. Paid dividends are attributed to financing activities. Interest paid for loans and lease is attributed to financing activities. Interest received for term deposits is reflected in investing activities.

(h) Future Costs

Future costs are accrued when during the reporting and previous reporting periods the Company pays for services of continuous nature to be provided in the future periods and the amounts paid shall be proportionally recognised as costs in the future reporting periods when incurred.

(i) Equity Capital and Reserves

Equity capital of the Company includes paid up part of authorised capital, share premium, legal reserve, revaluation reserve and retained profit (loss).

Ordinary registered shares are measured at their nominal value. Amount received for sold shares in excess of their nominal value is recognised as share premium. Costs related to new emission of shares reduce the share premium. Profit or loss from sold, issued or annulled own shares is not recognised in the profit (loss) statement.

According to the Law on Entities of the Republic of Lithuania, a legal reserve must conclude to the amount equal to 1/10 of the authorised capital. Until the determined amount of legal reserve is reached the Company's deductions that go into it must amount to at least 1/20 of net profit. A part of a legal reserve that exceeds the determined amount may be redistributed with the

---

Company's profit appropriation. Legal reserve that was used to cover Company's losses must be reformed.

Account of retained profit (loss) shows a profit earned during the reporting and previous periods that is not yet distributed or losses that are not yet covered.

Profit appropriation is registered in the accounting records of the Company when the shareholders pass a decision to distribute the profit, i.e. on the day of the shareholders' meeting, irrespective of when it was earned.

(j) Financial Liabilities

Financial liabilities are registered in the accounting records when the Company undertakes a liability to pay in cash or repay in other financial assets. Amounts payable for goods and services are measured at acquisition cost, i.e. the value of received assets or services. Initially loans are recognised at acquisition cost and subsequently they are recognised at amortised cost. Accumulated interest is recognised in the account of other amounts payable.

Financial liabilities include amounts payable for received goods and services, loans, financial lease liabilities and bonds.

Current liabilities are those that have to be fulfilled within one year subsequent to the balance sheet date.

(k) Provisions

Provisions are recognised as liabilities when the Company has a legal obligation or an irrevocable commitment as a result of actions in the past, and it is also likely that fulfilling a legal obligation or irrevocable commitment shall require using assets at hand, and the amount of the liability can be reliably measured.

(l) Sales Revenue

Sales revenue is recognised following the accrual principle. Income amount is recognised at fair value considering provided and foreseen discounts, returns and write-downs of sold goods. Income from sold goods is recognised when the goods are sold and the amount of income can be reliably measured.

Income from other activities includes profit from transferred used non-current assets, also other income that is not related to operating activity of the Company, but received from third parties, except for income from financing activities and extraordinary gains.

Income from financing activities includes positive effect of changes in currency rate, received interest, fines and charges on overdue payments paid by the buyers, received dividends, reversal of impairment in the value of investments.

(m) Costs

Costs are recognised in the accounting records following the accrual and comparison principles and within the reporting period in which the related income is earned, irrespective of the time the money was spent. Costs that are not related to reporting period income earning, but are intended for income earning in the future periods are registered in the accounting records and presented in the financial statements as assets.

**K2 LT, AB**

Company code 301950535 Address: Metalistų g 3, Kėdainiai.

Data preserved in the Centre of Registers, SE, Register of Legal Entities

**Financial statements for the period ended on December 31, 2017**

(All amounts are presented in Euros, unless indicated otherwise)

Cost of sales constitutes costs incurred in the Company within the reporting period and attributable to goods sold and services provided. This account only includes a part of costs that is related to products, goods and services sold within the reporting period.

General and administrative costs show costs incurred during the reporting period and related to operating activity of the Company and providing conditions for reporting period income earning, but they do not depend on the quantity of sold products, goods and services. Those costs are recognised, registered in the accounting records and presented in the financial statements of the period they were incurred in.

Costs from other activities include losses from sold used non-current assets and other costs that are not related to operating activity of the Company, but are incurred to earn the income from other activities.

Costs from financing activities include negative result of changes in currency rate, paid fines and charges on overdue, interest and liability charges related to financial payables, impairment in the value of investments.

(n) **Income Tax and Deferred Income Tax**

Calculation of income tax is based on the requirements of Income Tax Law of the Republic of Lithuania. The income tax rate of 15% is applicable to the Company in 2017.

(o) **Foreign Currencies**

All currency items in the balance sheet are measured in euros applying the currency rate on the balance sheet date. Assets recognised at acquisition value and acquired in foreign currency are presented in the balance sheet in euros on the basis of currency rate on the day of the transaction. Differences occurring after covering amounts registered in currency items with a different currency rate are recognised as profit or loss of the reporting period.

(p) **Accounting Estimates Made When Preparing the Financial Statements**

When preparing the financial statements management has to make certain assumptions and estimates, which affect the presented amounts of assets, liabilities, income and costs, as well as disclosure of contingencies.

Significant areas of these financial statements, in which the estimates are used, include depreciation, impairment in value measurements, provisions and possible income tax recalculations. State Tax Inspectorate under the Ministry of Finance of the Republic of Lithuania may review accounting records of the Company and its subsidiaries and associates anytime within five consecutive years after reporting yearend and attribute additional taxes and fines. The management of the Company is not aware of the circumstances, which could lead to significant liabilities in this respect.

Future events may change the assumptions used to make the estimates. The result of changes in those estimates is recognised in the financial statements when it occurs.

(q) **Error Corrections and Reclassifications**

## K2 LT, AB

Company code 301950535 Address: Metalistų g 3, Kėdainiai.

Data preserved in the Centre of Registers, SE, Register of Legal Entities

### Financial statements for the period ended on December 31, 2017

(All amounts are presented in Euros, unless indicated otherwise)

Errors of previous reporting periods detected in current reporting period are corrected in the financial statements of current period, if they are not material. Correction of an error is included in the same profit (loss) statement line, where the error was made. Material errors are corrected retrospectively and the error correction is presented in the financial statements of the reporting period by adjusting results of the previous year. Information on correction of such error is presented in the notes.

The Company considers an error to be material when it amounts to over 5% of reporting period net profit.

If the information for the reporting year is classified differently, the comparative year is reclassified so that the numbers are comparable.

#### (r) Contingent Liabilities and Assets

Contingent liabilities are future liabilities that may occur from events in the past and they can be confirmed or rejected by contingent future events that are not controlled by the Company, or current liabilities occurring from the past events. They are not reflected in the balance sheet as the amount of those liabilities cannot be reliably measured and (or) it is not likely that they will need to be fulfilled. Information on them is presented in the notes.

Contingent assets are assets that due to future events that are not controlled by the Company may belong to the Company and bring economic benefit. Information on probable assets is presented in the notes.

#### (s) Events after the Balance Sheet Date

Events after the balance sheet date are economic events that take place within the period from the balance sheet date to the date on which the financial statements are prepared, signed by the head of the Company and presented for approval.

Events after the balance sheet date that provide additional information on the Company's position at the balance sheet date (events leading to adjustment) are reflected in the financial statements. Events after the balance sheet date that are not leading to adjustment are described in the notes, if it is significant.

#### (t) Fair Value Measurement

Fair value measurement standard is applied when other Business Accounting Standards require or permit establishing the fair value of non-current tangible assets, investment property, biological assets, financial assets held for sale, derivative financial instruments and financial liabilities, or disclosing information on established fair value, conducting fair-value-based estimates.

Fair value is the amount in which, on the day of value measurement, parties of the transaction can sell each other assets or liabilities or transfer liabilities under ordinary market conditions.
