

HARMONISED INVESTMENT FUND “INVL UMBRELLA FUND”  
ANNUAL FINANCIAL STATEMENTS FOR 2018

**HARMONISED INVESTMENT FUND “INVL UMBRELLA FUND”  
ANNUAL FINANCIAL STATEMENTS FOR 2018,  
PRESENTED TOGETHER WITH INDEPENDENT AUDITOR’S REPORT**

## Independent auditor's report

To the participants of open-ended type special investment fund "INVL Umbrella Fund"

### Report on the audit of the financial statements

#### Our opinion

In our opinion, the financial statements presented on pages 7-59 give a true and fair view of the financial position of open-ended type harmonised investment fund "INVL Umbrella Fund" managed by UAB „INVL Asset Management" ("the Fund") as at 31 December 2018, and of its changes in net assets for the year then ended in accordance with Lithuanian regulatory legislation on accounting and financial reporting and Business Accounting Standards.

Our opinion is consistent with our additional report to the Board of UAB „INVL Asset Management".

#### *What we have audited*

The Fund's financial statements comprise:

- the statement of net assets as at 31 December 2018;
- the statement of changes in net assets income for the year then ended;
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Independence*

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the Law of the Republic of Lithuania on the Audit of Financial Statements that are relevant to our audit of the financial statements in the Republic of Lithuania. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Law of the Republic of Lithuania on the Audit of Financial Statement.

To the best of our knowledge and belief, we declare that non-audit services that we have provided to the Company are in accordance with the applicable law and regulations in the Republic of Lithuania and that we have not provided non-audit services that are prohibited under Article 5(1) of Regulation (EU) No 537/2014 considering the exemptions of Regulation (EU) No 537/2014 endorsed in the Law of the Republic of Lithuania on the Audit of Financial Statements.

No non-audit services were provided to the Fund in the period from 1 January 2018 to 31 December 2018. Fee for audit services is disclosed in note 20 to the financial statements.

## Our audit approach

### Overview

<b>Materiality</b>	Overall materiality : EUR 590 thousand (2017: EUR 768 thousand)
<b>Key audit matters</b>	Valuation and existence of investments

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including, among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

#### **Materiality**

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Fund materiality for the financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, if any, both individually and in aggregate on the financial statements as a whole.

<b>Overall Fund materiality</b>	EUR 590 thousand (2017: EUR 768 thousand)
<b>How we determined it</b>	Overall materiality represents 1 % of net assets of the Fund
<b>Rationale for the materiality benchmark applied</b>	We chose net assets as benchmark because, in our view, it is the generally accepted measure for funds. We chose 1 % which is within the range of acceptable quantitative materiality thresholds for this benchmark.

We agreed with the management of UAB „INVL Asset Management“ that we would report to them misstatements identified during our audit above EUR 30 thousand, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Key audit matter</b>	<b>How our audit addressed the key audit matter</b>
<p><b>Valuation and existence of investments</b>  <i>(refer to accounting policy (para 22.3.2) and note 4)</i></p> <p>Investments are the most significant item of statement of net assets (carrying amount of transferable securities is EUR 53,018 thousand).</p> <p>The investments into transferable securities are accounted for at fair value, which is determined with reference to prices available on the active market. If quoted prices from active markets are not available, the value is determined based on internally approved valuation methods that use key data from other observable inputs.</p> <p>Valuation and existence of transferable securities were given special audit attention due to the being the most material asset item.</p>	<p>We have discussed processes and controls related to valuation, sales and purchases of investments with management and tested operating effectiveness of selected controls.</p> <p>To obtain evidence on existence of all transferable securities, we have obtained confirmation letter from the bank that acts as depository and traced quantities and values of transferable securities as per letter to the data recorded by the Fund.</p> <p>To obtain evidence over the fair value of investments at the financial year-end, on a sample bases we have traced the value of selected transferable securities to publicly available market prices.</p> <p>Our work gave us sufficient audit evidence to conclude that the Fund's investments into transferable securities are properly accounted for.</p>

## Responsibilities of management and those charged with governance for the financial statements

Management of UAB „INVL Asset Management” is responsible for the preparation and fair presentation of the financial statements in accordance with Lithuanian regulatory legislation on accounting and financial reporting and Business Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and have communicated with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on other legal and regulatory requirements

### *Appointment*

We were first appointed as auditors of the Fund on year 2012. Our appointment has been renewed annually by resolution of shareholder of UAB „INVL Asset Management” representing a total period of uninterrupted engagement appointment of 7 years.

The certified auditor on the audit resulting in this independent auditor's report is Rasa Radzevičienė.

On behalf of PricewaterhouseCoopers UAB

## HARMONISED INVESTMENT FUND "INVL UMBRELLA FUND" ANNUAL FINANCIAL STATEMENTS FOR 2018

### I. GENERAL INFORMATION

1. The main information of the harmonised investment fund "INVL Umbrella Fund":

Information is provided under section *General information* in the explanatory notes.

2. Reporting period covered by these financial statements:

Information is provided under section *General information* in the explanatory notes.

3. Details of the management company:

Information is provided under section *General information* in the explanatory notes.

4. Details of the depository:

Information is provided under section *General information* in the explanatory notes.

### II. NET ASSET VALUE, NUMBER AND VALUE OF INVESTMENT UNITS

5. Net asset value (NAV), number and value of investment units:

Information is provided in Note 2.

6. Number of investment units distributed and redeemed over the reporting period and value:

Information is provided in Note 3.

### III. EXPENSE AND TURNOVER RATIOS OF THE COLLECTIVE INVESTMENT UNDERTAKING

7. Deductions from assets of the collective investment undertaking:

Information is provided in Note 20.

8. Intermediary fee:

Information is provided in Note 9.

9. Information on all existing arrangements on distributions and hidden commission fees:

Over the reporting period, the management company did not enter into any formal or informal arrangements on distributions, nor any hidden commission fees were applied to the Fund.

10. Illustration of impact of deductions on investor's ultimate return on investments:

The table below presents calculations relating to deduction (in EUR) on contributions of the participant of the collective investment undertaking in case of a current level of deductions and the amount to be received after 1, 3, 5, 10 years if EUR 3,000 is invested and the annual return on investments is 5%.

INVL Emerging Europe ex Russia TOP20 Subfund

	After 1 year	After 3 years	After 5 years	After 10 year
Deductions paid	139	315	518	1.157
Accrued amount before deductions	3.150	3.473	3.829	4.887
Accrued amount after deductions	3.011	3.157	3.311	3.729

INVL Emerging Europe Bond Subfund

	After 1 year	After 3 years	After 5 years	After 10 year

**IV. INFORMATION ON THE INVESTMENT PORTFOLIO OF THE COLLECTIVE INVESTMENT UNDERTAKING**

11. Structure of investment portfolio at the end of the reporting period:

Information is provided in Note 4.

12. Breakdown of investments by the criteria that meet the investment strategy:

Information is provided in Note 5.

13. Transactions involving derivative financial instruments conducted over the reporting period, other than those referred to in section 11 herein:

Information is provided in Note 8.

14. Types of derivative financial instruments referred to in section 11 of the financial statements, the related risks and quantitative limits and methods used to assess the risks incurred by the collective investment undertaking in relation to transactions involving derivative financial instruments. Description of how derivative financial instrument may be used to hedge investment instrument transaction (position) against risk:

Information is provided in Note 8.

15. Total value of liabilities arising on transactions involving derivative financial instruments at the end of the reporting period:  
Information is provided in Note 8.

16. Risk extent related to derivative financial instruments taken by the master collective investment undertaking: the sum of the direct potential risk extent of the feeder collective investment undertaking and the actual derivative financial instruments risk of the master collective investment undertaking that is proportional to the feeder collective investment undertaking's investments in the master undertaking, and the sum of the direct potential risk extent of the feeder collective investment undertaking and the extent of potential maximum risk that was taken by the master collective investment undertaking according to transactions in derivative financial instruments and that was determined in the founding documents of the master collective investment undertaking and that is proportional to the feeder collective investment undertaking's investments to the master undertaking.

The Umbrella Fund is a non-master collective investment undertaking.

17. Analysis of the current investment portfolio's compliance (non-compliance) with the collective investment undertaking's investment strategy (investment trends, investment specialisation, geographical area, etc.):  
Structure of investment portfolio is provided in Note 4.

18. Factors that had the major impact on the structure of investment portfolio and changes in its value over the reporting period:  
Information is provided in Note 4.

HARMONISED INVESTMENT FUND "INVL UMBRELLA FUND"  
ANNUAL FINANCIAL STATEMENTS FOR 2018

**V. RETURN ON INVESTMENTS AND RISK INDICATORS OF THE COLLECTIVE INVESTMENT UNDERTAKING**

19. Benchmark index (if selected) and its brief description:

Information is provided in Note 19.1.

20. Change in value of unit (share) for the same period, change in annual return (gross and net) on investments, and change in value of benchmark index (if selected), and other indicators over the last 10 years of the fund's operation. If the collective investment undertaking operated for a period shorter than 10 years, return on investments for the period during which the portfolio was managed:

Information is provided in Note 19.2.

21. Average return on investments, average change in value of investment unit and average change in value of benchmark index (if selected) over the last three, five, ten years (average net return on investments, average change in value of unit and average change in value of benchmark index are calculated as a geometric mean of annual changes in net return on investments, annual changes in value of unit and annual changes in value of benchmark index, respectively):

Information is provided in Note 19.3.

22. Other indicators showing the risks pertaining to the investment portfolio:

Other indicators showing the risks pertaining to the investment portfolio over the reporting period were not estimated.

**VI. FINANCIAL POSITION OF THE COLLECTIVE INVESTMENT UNDERTAKING**

23. The financial statements of the collective investment undertaking have been prepared in accordance with the requirements of the Lithuanian laws and legal acts:

23.1. Statement of net assets;

23.2. Statement of changes in net assets;

23.3. Explanatory notes.

## HARMONISED INVESTMENT FUND “INVL UMBRELLA FUND” ANNUAL FINANCIAL STATEMENTS FOR 2018

### **Listing**

With effect from September 2013, three out of four subfunds are quoted on the NASDAQ OMX Vilnius AB stock exchange: the INVL Emerging Europe Bond Subfund, INVL Emerging Europe ex Russia TOP20 Subfund, and the INVL Russia TOP20 Subfund.

### **Reporting period**

From 1 January 2018 to 31 December 2018

The reporting data pertaining to the Fund are presented in this financial statement – the financial statements have not been prepared separately for each Subfund.

### **23.3.2. Accounting policies:**

#### Regulatory legislation adopted in the preparation of the financial statements

INVL Asset Management UAB manages the assets of the Fund, keeps the accounting records and prepares the financial statements of each Subfund in compliance with Business Accounting Standards (BAS), Lithuanian Law on Accounting, Lithuanian Law on Collective Investment Undertakings and other legal acts.

#### Generally accepted accounting principles

The financial year of the Fund coincides with the calendar year. Assets and liabilities reported in the Fund's financial statements as at the end of the reporting period are presented at the value as at 31 December 2018.

The Fund's financial statements are prepared within four months following the end of the financial year. All amounts in these financial statements are presented in the euros (EUR).

#### Investment policy and structure of investment portfolio

Each Subfund has a separate investment strategy.

##### *INVL Emerging Europe ex Russia TOP20 Subfund*

The Subfund's investments are concentrically distributed among shares of 15–25 Emerging Europe (except for Russia) region companies. A high risk of fluctuations is assumed when making investments and the aim is to achieve a maximum return on investments in shares.

The Subfund's assets are invested in Central and Eastern Europe region. The Subfund's investments are not restricted to certain industry sector. The Subfund may invest in bonds of different maturities and with different credit ratings.

When no better investment possibilities are available in the market, up to 100% of the Subfund's assets may be invested in deposits, money market instruments and harmonised investments units (shares) of collective investment undertakings with the main investment trend focused on money market instruments or bonds and other forms of non-equity securities. The Subfund's assets may be invested in derivative financial instruments, provided they are used for risk management purposes.

##### *INVL Emerging Europe Bond Subfund*

The objective of the Subfund is to ensure a balanced growth in the Subfund's assets. Up to 100% of the Subfund's funds is invested the non-equity securities of the most promising emerging Europe governments and companies as selected by the managers. The Subfund combines riskier investments (corporate bonds) and safer ones (government bonds) in order to protect the value of assets and ensure a stable return on the Subfund's investments.

The Subfund's assets are invested in Central and Eastern Europe region. The Subfund's investments are not restricted to certain industry sector. The Subfund may invest in bonds of different maturities and with different credit ratings.

When no better investment possibilities are available in the market, up to 100% of the subfund's assets may be invested in deposits, money market instruments and harmonised investments units (shares) of collective investment undertakings with the main investment trend focused on money market instruments or bonds and other forms of non-equity securities. The Subfund's assets may be invested in derivative financial instruments, provided they are used for risk management purposes.

## HARMONISED INVESTMENT FUND "INVL UMBRELLA FUND" ANNUAL FINANCIAL STATEMENTS FOR 2018

### 23.3.2. Accounting policies (continued)

#### *INVL Global Emerging Markets Bond Subfund*

At least 80% of the INVL Global Emerging Markets Bond Subfund's funds are invested in those debt securities of governments, municipalities and companies in emerging countries (securities exchanges and markets) that credit analysis shows to be the most promising.

The Subfund combines riskier investments (corporate bonds) and safer ones (government, municipality bonds) in order to protect the value of assets and ensure a stable return on the Subfund's investments. The Subfund's investments are not restricted to certain industry sector. The Subfund may invest in bonds of different types and with different credit ratings. Moreover, the objective will be to retain the average bond maturity not higher than that of the benchmark index.

When no better investment possibilities are available in the market, up to 100% of the Subfund's assets may be invested in deposits, money market instruments and harmonised investment units (shares) of collective investment undertakings with the main investment trend focused on money market instruments or bonds and other forms of non-equity securities. The Subfund's assets may be invested in derivative financial instruments, provided they are used for risk management purposes.

The Subfund invests no less than 80% of its funds in the securities denominated in the euros or the US dollars. Foreign exchange risk is hedged using derivative financial instruments. Open foreign currency position cannot exceed 20%.

#### *INVL Russia TOP20 Subfund*

The Subfund's objective is to strive for maximum return on investments in shares of Russian companies.

The Subfund's assets are invested in the financial instruments of entities (companies and CIUs investing in such companies) operating in the Russian Federation. The Subfund's investment portfolio mostly comprises investments in shares. No more than 33% of the Subfund's assets may be invested outside the territory of Russian Federation in the financial instruments of companies operating in other CIS countries (including the former CIS countries). The Subfund's investments are based on strategic and tactic approach of distribution of assets and frequent adjustments to the portfolio to ensure higher growth of portfolio value.

The Subfund's portfolio comprises the shares of 15-25 different companies. Low diversification of the Subfund's investment portfolio allows ensuring maximum control over the selected positions and effective Subfund structure. Up to 100% of the Subfund's investment portfolio consists of investments in shares.

When no better investment possibilities are available in the market, up to 10% of the Subfund's assets may be invested in bonds and other forms of non-equity securities (government and corporate). The Subfund may invest in bonds of different maturities and with different credit ratings.

INVL Russia TOP20 Subfund invests in shares of emerging markets that have significant fluctuations in prices, therefore, continuous changes on stock exchanges may give rise to substantial fluctuations in the Subfund's net asset value.

Probability that the composition of the Fund's portfolio or portfolio management methods will give rise to significant fluctuations in the subfund's net asset value is remote.

The structure of the Fund's investment portfolio is presented in Note 4.

#### Financial risk management

The Fund's exposure to financial risks is managed through the diversification of the investment portfolio based on diversification principles defined in the Fund's rules.

The Investment Committee decides on the composition of the Fund's investment portfolio in view of the current risk level of the portfolio and the effects of decisions made on the overall risk level of the portfolio.

The Fund's portfolio risk and liquidity are assessed periodically and reported to the Investment Committee.

The Fund's investment portfolio risk is assessed on the basis of constituent securities in view of:

- issuer's credit rating;
- price sensitivity to interest rate shifts;
- nominal currency risk;
- maturity;
- yield;
- weight of securities in total investment portfolio;
- liquidity.

### 23.3.2. Accounting policies (continued)

The shares of the issuer held by the management company together with the shares of the same issuer held by the managed subfunds may not carry over 1/10 of the voting rights at the issuer's general meeting of shareholders.

The Subfund's assets may be used to acquire no more than as follows:

- 10% of the non-voting shares of an issuing body;
- 10% of the debt securities and other forms of non-equity securities of an issuing body;
- 25% of the units or shares of another collective investment undertaking;
- 10% of the money market instruments issued by a single issuing body.

#### Policies for recognition of increase and decrease in assets and liabilities

Difference between the value of the Subfund's net assets and the value of the Subfund's liabilities reflects the value of net assets (NA).

Calculation of assets and liabilities is based on their fair value, which reflects the NA value, at which the sale of these assets are mostly probable.

Financial assets are recorded when the Subfund receives or obtains a contractual right to receive cash or any other financial assets, i.e. following the selected trade date approach, when the receivable financial asset and the liability to pay for it are recorded in the buyer's books of account at the date of the transaction. In the seller's books of account, the financial asset sold is written off, and a receivable amount and the result of disposal (gain or loss) are recorded at the date of the transaction. Planned transactions, guarantees and sureties received are not recognised as assets of the Subfund for as long as they do not meet the definition of financial assets.

Financial liabilities are recorded when the Subfund assumes a commitment to pay cash or any other financial assets (the selected trade date approach). Planned transactions, guarantees and sureties granted and not yet binding for fulfilment are not recognised as liabilities of the Subfund for as long as they do not meet the definition of financial liabilities.

Liabilities are recorded in line with the requirements of Business Accounting Standards. Liabilities (or part of them) should be written off only when they extinguish, i.e. when contractual liabilities are settled, annulled or have expired.

When calculating the NA value in foreign currency, the value of assets and liabilities is determined using a foreign exchange reference rate of EUR against other currencies published by the European Central Bank, and where such foreign exchange reference rate is not published by the European Central Bank, using the foreign exchange reference rate published on the date of estimation by the Bank of Lithuania. For the purpose of accounting, the most recent foreign exchange rate effective before the economic event or economic transaction should be applied.

#### Rules on deductions to the accumulation undertaking and the deposit

The maximum rates of deductions from the Fund's assets charged for the management of the Fund and the services provided by the Depository are presented in the Fund's rules.

The specific rates of deductions for the management of the Fund are set by the decision of the Board of the Management Company and they are available to public on the Management Company's official website at address [www.invl.com](http://www.invl.com).

Any other costs not specified in the Fund's rules (including expenses related to the services provided by the depository) or in excess of the defined limits are born by the Management Company at its own expense.

The Fund's deductions over the reporting period are presented in Note 20.

## HARMONISED INVESTMENT FUND "INVL UMBRELLA FUND" ANNUAL FINANCIAL STATEMENTS FOR 2018

### 23.3.2. Accounting policies (continued)

#### Investment valuation methods, investment revaluation intervals

The Fund's net assets are measured at fair value in accordance with the procedure prescribed by legal acts of the Republic of Lithuania and in line with the net assets calculation procedures approved by the Management Company.

Valuation of net assets (NA) is based on the following principles for determining the fair value of investments:

- The fair value of financial instruments traded on regulated markets is determined with reference to the quoted closing price of the instrument or, in case the closing price is not available, with reference to the average market price quoted on that regulated market and/or multilateral trading system, which has a higher liquidity, regularity and frequency of trade in these financial instruments, except for the cases defined in the Methodology for Calculation of Net Assets approved by the Bank of Lithuania;
- The fair value of financial instruments not traded on regulated markets is determined with reference to the Methodology for Calculation of Net Assets approved by the Bank of Lithuania;
- Valuation of investment units (shares) of collective investment undertakings is carried out with reference to the NA value determined by the collective investment undertaking or the last quoted redemption price;
- Valuation of time deposits is based on the amortised cost;
- Valuation of cash on hand and cash held at credit institutions, except for time deposits, is based on the nominal value;
- Valuation of derivative financial instruments is based on the last market value of previous analogous transactions, provided there were no substantial changes in economic circumstances over the period between the date of the transaction and the date of valuation;
- Valuation of other assets is based on the most probable selling price determined by the selected valuation model, which is generally accepted in the financial market.

#### Valuation of liabilities

Valuation of liabilities is based on the requirements of Business Accounting Standards:

- Liabilities initially are recognised at cost;
- Liabilities related to market prices are measured at fair value;
- Liabilities not related to market prices are carried at amortised cost, which approximates to the fair value.

#### Rules on valuation of investment units

The initial value of the Subfund's unit, which was available before the first calculation of net asset value, was equal to EUR 28.9620, and, in the case of the INVL Global Emerging Markets Bond Subfund, it was equal to EUR 100.

The Subfund's net asset value for the current day is calculated by midday (12am) of the following day.

The value of the Subfund's unit is calculated by dividing the Subfund's net asset value by the number of all fund's units in issue as at the date of calculation. The total value of all units of the subfund is always equal to the subfund's net asset value. The value of the Subfund's unit is determined as four figures after the decimal point and rounded according to the mathematical rules of rounding.

The value of the Subfund's unit is announced not later than by midday (12am) of the following day after the calculation of net asset value, on the website at address [www.invl.com](http://www.invl.com).

#### Cash and time deposits

Cash includes cash balances at accounts opened with credit institutions, overnight deposits and deposits with undefined maturity the repayment of which may be demanded in full or in part at any time without losing accumulated interest thereon (demand deposits).

Time deposits include a deposit amount with the specific deposit repayment date indicated in the deposit agreement, including the deposits with maturity of three months or less that cannot be taken from the account opened with the credit institutions without losing accumulated interest thereon. Time deposits are shown with accumulated interest thereon.

## HARMONISED INVESTMENT FUND “INVL UMBRELLA FUND” ANNUAL FINANCIAL STATEMENTS FOR 2018

### 23.3.2. Accounting policies (continued)

#### Amounts receivable and amounts payable

Amounts receivable represent amounts due to the fund on sale of investments, amounts due on guarantee contributions and other amounts receivable under contracts. Amounts receivable also include amounts due from the management company that upon receipt are deducted from expenses for the reporting period, other than those defined in the Subfund's rules or which exceed the established limits.

Amounts payable represent amounts due to other subfunds to which the participant move, amounts due to the participants or their beneficiaries, amounts due to the distributors, amounts payable under the service agreement, and other amounts payable and receivable not specified elsewhere.

#### Subsequent events

All significant subsequent events that occurred after the end of the reporting period are disclosed in Note 15 of the explanatory notes.

The Subfund's investment portfolio is in line with the Fund's investment strategy.

The Subfund invests in financial instruments of companies operating in Central and Eastern Europe (except for Russia). Up to 100% of the Subfund's investments comprise investments into shares. If needed (e.g. for risk mitigation purposes), up to 10% of the Subfund's funds may be invested in government and corporate non-equity securities.

As at the end of the year, the Subfund's investments mostly comprised investments in the financial, transport, oil and gas sectors. In terms of countries, the largest share of investments comprised investments in the shares of companies in Poland, Romania, and Austria.

Changes in the value of the investment portfolio of the Subfund mainly stemmed from market prices of financial instruments.

The Subfund's investment portfolio is in line with the Fund's investment strategy.

The Subfund invests in Central and Eastern Europe region. The Subfund combines riskier investments (corporate non-equity securities) and safer ones (government non-equity securities) in order to protect the assets of the investors and generate a stable return. The Subfund invests only in securities denominated in the euros or the US dollars and in currency risk hedging.

As at the end of the year, the Subfund's investments mostly comprised investments in the Russian, Georgian, and Lithuanian markets.

Changes in the value of the investment portfolio of the Subfund mainly stemmed from market prices of financial instruments.

The Subfund's investment portfolio is in line with the Fund's investment strategy.

The Subfund invests in government and corporate bonds in global emerging markets, other forms of non-equity securities, and harmonised investment units (shares) of collective investment undertakings with the main investment trend focused on bonds and other forms of non-equity securities.

As at the end of the year, the Subfund's investments mostly comprised investments in the Baltic, Georgian, and Turkish markets.

Changes in the value of the investment portfolio of the Subfund mainly stemmed from market prices of financial instruments.

The Subfund's investment portfolio is in line with the Fund's investment strategy.

The Subfund invests in financial instruments of companies operating in the Russian Federation. Up to 100% of the Subfund's investments consist of investments in shares. No more than 33% of the Subfund's assets may be invested outside the territory of Russian Federation in the financial instruments of companies operating in other CIS countries (including the former CIS countries).

Changes in the value of the investment portfolio of the Subfund mainly stemmed from market prices of financial instruments.

Note 7. Results of disposal of investments

During 2016 and 2017, the undertaking had no sale transactions involving financial instruments other than those measured at fair value.

Note 8. Derivative financial instruments

**INVL Emerging Europe ex Russia TOP20 Subfund**

The Subfund had no transactions involving derivative financial instruments over the reporting period.

**INVL Emerging Europe Bond Subfund**

During the reporting period, the Fund conducted currency forwards which were used for the purposes of the management of currency risk. Currency forwards were used to mitigate currency risk related to investments denominated in the US dollars, thus reducing fluctuations in the value of the Fund's investments and the Fund's unit resulting from changes in foreign exchange rates.

In concluding these non-exchange traded transactions, the Fund assumes the related credit risk of the issuer of forwards. This is the risk of non-performance of the financial obligations assumed by the counterparty or the issuer in respect of the Fund. This risk is managed on the basis that the total amount of investments into one counterparty of issue should not exceed 20% of the value of net assets.

**Note 8. Transactions involving derivative financial instruments (continued)**

The transactions involving derivative financial instruments that expired during the reporting period were as follows:

Category of instrument	Settlement date	Gain/loss	Currency	Intended purpose of the derivative	Comments

Services granted: commission fee for intermediation services in transactions involving securities

Relationship of the intermediary to the management company – the management company and intermediary have signed an agreement on intermediation services, except those concluded with the counterparty

\* SEB Bankas AB is the depository of the Fund managed by the Management Company

Note 10. Dividends and other benefits assessed and/or paid to the participants that do not result in changes in units

The Fund did not pay and did not account for any dividends payable to its clients over the reporting period.

Note 11. Borrowings and loans granted

The Fund had no borrowings for its own needs as at the end and over the reporting period.

Note 12. Third-party guarantee commitments in respect of the undertaking's yield

There were no third-party guarantee commitments in respect of the undertaking's yield as at the end and over the reporting period.

Note 13. Related-party transactions over the financial year and previous financial year

Transactions and balances arising on these transactions with the management company have been disclosed in Notes 4 and 20.

Note 14. Significant effect of changes in accounting estimates, or if these were not made, adjustments to comparative information due to changes in accounting policies or correction of errors

During the reporting period from 1 January 2018 to 31 December 2018, the Fund applied accounting policies consistent with those applied in the previous year.

Note 15. Brief description of significant events after the end of the reporting period that, if not disclosed, might have material impact on the ability of users of these financial statements to make decisions

There were no significant events after the end of the reporting period.

Note 16. Significant changes in assets and liabilities that occurred after the date of calculation net asset value and that were not included in net asset value

There were no significant changes in assets and liabilities after the end of the reporting period.

Note 17. Other significant information on the financial position of the collective investment undertaking, factors and circumstances that had impact on assets and liabilities of the collective investment undertaking

There is no other significant information on the financial position of the fund.

Note 18. Financial risk and risk management methods

Description of risks that affect the Subfund

The Fund's exposure to financial risks is managed through the diversification of the investment portfolio based on diversification principles defined in the Fund's rules and legal acts regulating the Subfund's activities.

The Fund's portfolio risk and liquidity are assessed periodically and reported to the Investment Committee.

Risks relating to the Fund's investments and their management:

Inflation risk

With higher inflation rates, the purchasing power of the Subfunds' investment unit respectively declines. In managing this risk, the Subfunds may use derivative financial instruments by channelling part of the funds into derivative financial instruments the value of which changes in line with changes in inflation growth. Historically, investments into equity instruments provide sufficient protection from inflation. For the purpose of additional inflation risk hedging, fund managers may choose to invest in bonds the value of which is related to inflation rates or change the fund's average bond maturity.

Interest rate risk

Interest rate risk. The value of non-equity securities may increase or decrease due to interest rate shifts or changes in future expectations. In managing this risk, the management company may use derivative financial instruments and change the average bond maturity.

Credit risk

Credit risk is a risk to incur losses as a result of deteriorated financial position of the issuer or future prospects. The assessment of this risk takes into account the financial position of the issuer, including but not limited to, its presented financial statements, credit rating assessments, other publicly available information, such as company reports, assessments of financial analysts.

Credit risk is managed by diversifying the investment portfolio as prescribed by laws, which means that investments in the investment portfolio of each Subfund are distributed so that investments in the entity's transferable securities or money market instruments may exceed 5 per cent but no more than 10 per cent of net assets, provided that the total amount of the investments is not higher than 40 per cent of net assets.

Foreign exchange risk

Adverse fluctuations in foreign currency exchange rate against the euro expose to a risk to incur losses if the Subfunds invest in securities denominated in currencies other than the Subfunds' accounting currency. This risk is managed by seeking not to incur it and investing in financial instruments denominated in the euro or hedging the risk using derivative financial instruments.

## HARMONISED INVESTMENT FUND "INVL UMBRELLA FUND" ANNUAL FINANCIAL STATEMENTS FOR 2018

### Note 18. Financial risk and risk management methods (continued)

#### Liquidity risk

This risk is managed on the basis of exposure limits: exposure limit per single counterparty or issuer may not exceed 20% of net asset value.

#### Sensitivity analysis – share market risk

Beta ratio is the best measure of the Fund's sensitivity to market risk (calculated using the Subfund's data and the Subfund's benchmark index data).

##### *INVL Emerging Europe ex Russia TOP20 Subfund*

At the end of 2018, the fund's Beta ratio was 0.54 (for 12 months).

This implies that a 1% change in the subfund's benchmark index resulted in on average 0.54% change in value.

##### *INVL Emerging Europe Bond Subfund*

At the end of 2018, the fund's Beta ratio was 0.68 (for 12 months).

This implies that a 1% change in the subfund's benchmark index resulted in on average 0.68% change in value.

##### *INVL Global Emerging Markets Bond Subfund*

At the end of 2018, the fund's Beta ratio was 0.52 (for 12 months).

This implies that a 1% change in the subfund's benchmark index resulted in on average 0.52% change in value.

##### *INVL Russia TOP20 Subfund*

At the end of 2018, the fund's Beta ratio was 0.83 (for 12 months).

This implies that a 1% change in the subfund's benchmark index resulted in on average 0.83% change in value.

The sensitivity analysis is based on the following assumptions:

- historical correlation that existed between the Subfund's investments and their benchmark index will still be relevant in the future;
- there is a linear correlation between the Subfund's value and the values of benchmark index over time.

### Note 19. Return on investments and benchmarks for investments:

#### 19.1. Benchmark index (if selected) and its brief description:

The Fund does not have a benchmark index.

The benchmark indices of the Subfunds are as follows:

Subfund	Benchmark index
INVL Emerging Europe ex Russia TOP20 Subfund	With effect from 29 October 2010, the Subfund uses the benchmark index 1.0 * CECE Extended Index EUR (CECEXEUR Index).
INVL Emerging Europe Bond Subfund	With effect from 27 March 2015, the Subfund uses the benchmark index 0.5* JPMorgan Euro Emerging Markets Bond Index Diversified Europe+0.4* JPMorgan Corporate Emerging Markets BondIndex Broad Europe+0.1* Euro Cash Indices Libor Total Return 1 Month Index.
INVL Global Emerging Markets Bond Subfund	With effect from 31 July 2018, the Subfund uses the combined benchmark index 0.5*J.P. Morgan Euro Emerging Markets Bond Index (EMBI) Global Diversified Europe (JPEFEUR Index) + 0.4*J.P. Morgan Corporate Emerging Markets Bond Index (CEMBI) Broad Europe Index (JCBBEURO Index) + 0.1*EONIA Total Return Index (DBDCONIA Index).
INVL Russia TOP20 Subfund	With effect from 29 October 2010, the Subfund uses the benchmark index Russian Trading System Cash Index (RTSIS Index) (recalculated in EUR), which reflects changes in prices of shares of Russian companies

<sup>1</sup> Change in value of unit (share) does not take into account deductions of contributions.

<sup>2</sup> Standard deviation of change in value of unit is a standard risk indicator, which shows how far the changes in value of unit are spread above and below the mean change.

<sup>3</sup> Standard deviation of change in value of benchmark index is a statistical risk indicator, which shows how far the changes in value of benchmark index are spread above and below the mean change.

<sup>4</sup> Correlation factor between value of unit and value of benchmark index is a ratio, which shows statistical dependence between the values of unit and the values of benchmark index.

<sup>5</sup> Index tracking error is a ratio, which shows how closely the changes in value of unit match (or follow) the changes in value of benchmark index.

<sup>6</sup> Alfa ratio is a ratio, which shows the difference between the change in value of the accounting unit of pension fund and the change in value of benchmark index, given a comparable risk level.

<sup>7</sup> Beta ratio is a ratio, which shows the scope of change in value of the accounting unit of pension fund as compared to the change in the value of benchmark index.  
The Fund started its operations as of 29 October 2010.
