Magnetic MRO expands to South East Asia, opens office in Kuala Lumpur

Magnetic MRO, a global provider of Total Technical Care for aircraft operators and lessors, has announced the launch of its Representative Office in the capital of Malaysia Kuala Lumpur. The company's new office will focus on developing new customers and partners in South East Asia.

Kuala Lumpur-based team will focus on the introduction of Magnetic MRO services in the local market by developing Technical Training, Engineering and DOA solutions for Malay, Indonesian, Singaporean, Thai, Vietnamese and other aircraft operators and maintenance organizations in the region. In addition, Magnetic MRO will provide to local airlines, MROs and other market players with scheduled and AOG aircraft spare parts supply.

"Asia Pacific is the fastest growing market in aviation – both aircraft fleet and MRO-wise. Having well-established operations in Europe and being already present in the Chinese MRO market, it is a natural decision to start the development in yet another direction – South East Asia," says Inga Douglas, Chief Commercial Officer at Magnetic MRO.

Being focused on Total Technical Care, Magnetic MRO plans to eventually expand the range of services offered for SEA customer, covering Line Maintenance, Engine Management, Asset Management, Aircraft Teardown, Aircraft Transition Management, PBH programs, and other products.

"The capital of Malaysia is well situated in terms of good access to other countries in the region. It is also convenient for Part 147 training customers who will be able to reach our training facilities within just a few-hour flight. In future, we might also consider launching Heavy Maintenance or Aircraft Painting facilities in the region – either on our own or in cooperation with local partners," adds Magnetic MRO's executive.

Currently, Magnetic MRO operates at almost thirty locations worldwide, including Miami (USA), London (UK), Amsterdam (Netherlands), Tallinn (Estonia), Dubai (UAE), Guangzhou (China), and recently launched Kuala Lumpur (Malaysia).

MagneticMRO

Magnetic MRO in brief:

Magnetic MRO is a global provider of EASA and FAA-certified Total Technical Care and Asset Management solutions. Headquartered in Tallinn, Estonia, the company maintains a strong presence in Europe, the CIS, Africa, and North America. With two decades of experience in the MRO market, Magnetic MRO has an established reputation of a technologically advanced, innovative provider of integrated MRO services. The company specializes in a wide range of MRO areas: from engine management to line and base maintenance, from components to landing gear solutions, from engineering services and asset management to interior solutions and full aircraft painting.
