The Company is a limited liability profit-oriented entity registered on 28 August 2008 with the Register of Legal Entities managed by the public institution the Centre of Registers. Company code 301844044, VAT payer's code LT10004278519. The Company has been founded for an indefinite period.

The Company is a parent company, which is responsible for the management and coordination of activities of Group companies engaged in electricity and heat generation (including electricity generation from renewable energy sources), supply, electricity import and export, distribution and trade, natural gas distribution and supply, as well as in service and development of electric energy industry.

The Company analyses the activities of Group companies, represents the whole group, implements its shareholders' rights and obligations, defines operation guidelines and rules, and coordinates the activities in the fields of finance, law, strategy and development, human resources, risk management, audit, technology, communication, etc.

The Company seeks to ensure effective operation of Group companies, implementation of goals related to the Group's activities set forth in the National Energetic Independence Strategy and other legal acts, ensuring that it builds a sustainable value in a socially responsible manner.

The Company is wholly owned by the State of the Republic of Lithuania.

Company's shareholder	At 31 December 2019		At 31 December 2018	
	Share capital, in EUR '000	%	Share capital, in EUR '000	%
Republic of Lithuania represented by the Lithuanian Ministry of Finance	1,212,156	100	1,212,156	100

As at 31 December 2019, the Group had 3,846 (31 December 2018 – 3,813).

These financial statements were authorised for issue at 28 February 2020.

2 Accounting principles

2.1 Basis of preparation

These financial statements, prepared for the period ended 31 December 2019, cover condensed interim financial statements of a parent company UAB Ignitis Grupė and consolidated Company's and its subsidiaries (collectively “the Group”) condensed interim financial statements. These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and applicable to interim financial reporting (International Accounting Standard (IAS) 34, 'Interim financial reporting'). This unaudited condensed interim financial information should be read together with the annual financial statements for the year ended 31 December 2018, which have been prepared in accordance with IFRS as adopted by the EU.

In year 2019 management of a Group have reviewed accounting methods applied for:

- presentation of revenue received from new consumers
- presentation of revenue relating to rendering of public service obligations and electricity transmission services
- presentation of incomes, of securities of Liquefied Natural Gas Terminal's (LNGT) component, collected from customers and gas distribution services

The new methods for the Group's financial statements are applied retrospectively in accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors therefore the Group presents an additional statement of financial position for the 1 January 2018, when the revised accounting and presentation methods were applied retrospectively by restating items in the financial statements (see Note 3).

Other accounting methods applied in the preparation of the condensed interim financial information are the same as those applied in the preparation of the annual financial statements for 2018 except the matters relating to changes in accounting methods used (see Note 3). Financial year of Company and other Group companies coincides with the calendar year.

These financial statements are presented in euros and all values are rounded to the nearest thousands, except when otherwise indicated and include comparative information for the prior period ended 31 December 2018.

a) New and amended standards, and interpretations

• IFRS 16: Lease

During the financial year ended 31 December 2019, the Company and Group has applied IFRS 16 Leases for the first time, which had significant impact on the Company's and Group's financial statements. IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognize most leases on the statement of financial position. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17.

The Company and Group has adopted IFRS 16 Leases using the modified retrospective approach of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard is recognized in retained earnings at the date of initial application and comparative information is not restated.

The impact of the first-time adoption of IFRS 16 Leases on the Group's financial statements is shown in the table below:

	At 31 December 2018	IFRS 16	At 1 January 2019
ASSETS			
Non-current assets			
Property, plant and equipment	35.969	(35.969)	-
Right-of-use asset	-	50.523	50.523
EQUITY AND LIABILITIES			
Non-current liabilities			
Lease liabilities			
Current liabilities	14.334	12.291	26.625
Current portion of lease liabilities			
ASSETS	5.220	2.263	7.483

The impact of the first-time adoption of IFRS 16 Leases on the Company's financial statements is shown in the table below:

	At 31 December 2018	IFRS 16	At 1 January 2019
ASSETS			
Non-current assets			
Right-of-use asset	-	847	847
EQUITY AND LIABILITIES			
Non-current liabilities			
Lease liabilities			
Current liabilities	-	637	637
Current portion of lease liabilities			
ASSETS	-	211	211

The impact of first-time adoption of IFRS 16 on the Company's and the Group's lease commitments is presented in the table below:

	Group	Company
The future minimum lease payments under irrevocable operating lease agreements as at 31 December 2018 are as follows:	21,443	1,033
Less: Commitments relating to short-term leases	24	-
Less: Commitments relating to leases of low-value assets	6	-
Pakoreguotos būsimosios minimalios įmokos pagal neatšaukiamas veiklos nuomos sutartis 2018 m. gruodžio 31 d.	21,413	1,033
The weighted average interest rate as at 1 January 2019, %	3.44	0.43
The lease liability is recognised on 1 January 2019 by applying the interest rate	14,554	1,024
Lease liabilities as at 1 January 2019	14,554	1,024
Of which:		
Current lease liabilities	2,263	771
Non-current lease liabilities	12,291	253

Applied practical transitional arrangements when the Company and the Group are lessees

Upon adoption of IFRS 16, the Company applied a single recognition and measurement approach for all leases except for short-term leases and leases of low-value assets. The following specific transition requirements and practical expedients that the standard provides were applied by the Company:

The Company also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics,
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application,
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application,
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease.
- **IFRS 9: Prepayment features with negative compensation (Amendment)**
The Amendment allows financial assets with prepayment features that permit or require a party to a contract either to pay or receive reasonable compensation for the early termination of the contract (so that, from the perspective of the holder of the asset there may be 'negative compensation'), to be measured at amortized cost or at fair value through other comprehensive income. Management assessed that adoption of new standard amendment for the first time had no significant effect on financial statements of the Company and the Group.

- **IAS 28: Long-term Interests in Associates and Joint Ventures (Amendments)**
The Amendments relate to whether the measurement, in particular impairment requirements, of long term interests in associates and joint ventures that, in substance, form part of the 'net investment' in the associate or joint venture should be governed by IFRS 9, IAS 28 or a combination of both. The Amendments clarify that an entity applies IFRS 9 Financial Instruments, before it applies IAS 28, to such long-term interests for which the equity method is not applied. In applying IFRS 9, the entity does not take account of any adjustments to the carrying amount of long-term interests that arise from applying IAS 28. Management assessed that adoption of new standard amendment for the first time had no significant effect on financial statements of the Company and the Group.
- **IFRIC INTERPRETATION 23: Uncertainty over Income Tax Treatments**
The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12. The Interpretation provides guidance on considering uncertain tax treatments separately or together, examination by tax authorities, the appropriate method to reflect uncertainty and accounting for changes in facts and circumstances. Management has assessed that adoption of interpretation for the first time had no significant effect on financial statements of the Company and the Group.
- **IAS 19: Plan Amendment, Curtailment or Settlement (Amendments)**
The Amendments require entities to use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after a plan amendment, curtailment or settlement has occurred. The Amendments also clarify how the accounting for a plan amendment, curtailment or settlement affects applying the asset ceiling requirements. Management assessed that adoption of new standard amendment for the first time had no significant effect on financial statements of the Company and the Group.
- **The IASB has issued the Annual Improvements to IFRSs 2015 – 2017 Cycle, which is a collection of amendments to IFRSs:**
 - **IFRS 3 Business Combinations and IFRS 11 Joint Arrangements:** The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.
 - **IAS 12 Income Taxes:** The amendments clarify that the income tax consequences of payments on financial instruments classified as equity should be recognized according to where the past transactions or events that generated distributable profits has been recognized.
 - **IAS 23 Borrowing Costs:** The amendments clarify paragraph 14 of the standard that, when a qualifying asset is ready for its intended use or sale, and some of the specific borrowing related to that qualifying asset remains outstanding at that point, that borrowing is to be included in the funds that an entity borrows generally.

Management assessed that adoption of Annual improvements for the first time had no significant effect on financial statements of the Company and the Group.

b) Standards issued but not yet effective and not early adopted

- **IFRS 17: Insurance Contracts (New)**
IFRS 17, effective from 1 January 2021, changes IFRS 4, which permits entities to continue to use current practices in accounting for insurance contracts. This made it difficult for investors to compare the financial performance of similar insurance companies. IFRS 17 is a general principle-based standard that sets out accounting requirements for all types of insurance contracts, including reinsurance contracts held by an insurer. The Standard requires the recognition and measurement of classes of insurance contracts: (i) risk-adjusted present value of future cash flows (cash flows from the performance of the contract), which reflects all available information about cash flows from the contract that is consistent with market observable data by adding (if the value is a liability) or subtracting (if the value is an asset); (ii) the amount reflecting unearned profit (contracted service margin) from the group of contracts. Profits from a group of insurance contracts will be recognized by insurers for the duration of the insurance coverage and the moment they transfer the risk. If a group of contracts is or becomes a loss, the entity will recognize the loss immediately. The standard has not yet been approved by the EU. This IFRS will not have any impact on the financial position or performance of the Company and the Group as insurance services are not provided.
- **Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture**
The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015 the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. The amendments have not yet been endorsed by the EU. Management has assessed that adoption of new standard will have no significant effect on financial statements of the Company and the Group.
- **Conceptual Framework in IFRS standards**
The IASB issued the revised Conceptual Framework for Financial Reporting on 29 March 2018. The Conceptual Framework sets out a comprehensive set of concepts for financial reporting, standard setting, guidance for preparers in developing consistent accounting policies and assistance to others in their efforts to understand and interpret the standards. IASB also issued a separate accompanying document, Amendments to References to the Conceptual Framework in IFRS Standards, which sets out the amendments to affected standards in order to update references to the revised Conceptual Framework. Its objective is to support transition to the revised Conceptual Framework for companies that develop accounting policies using the Conceptual Framework when no IFRS Standard applies to a particular transaction. For preparers who develop accounting policies based on the Conceptual Framework, it is effective for annual periods beginning on or after 1 January 2020.

- **IFRS 3: Business Combinations (Amendments)**

The IASB issued amendments in Definition of a Business (Amendments to IFRS 3) aimed at resolving the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The Amendments are effective for business combinations for which the acquisition date is in the first annual reporting period beginning on or after 1 January 2020 and to asset acquisitions that occur on or after the beginning of that period, with earlier application permitted. These Amendments have not yet been endorsed by the EU. At the moment Management is assessing the effect of new standard amendment on financial statements of the Company and the Group.

- **IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors: Definition of 'material' (Amendments)**

The Amendments are effective for annual periods beginning on or after 1 January 2020 with earlier application permitted. The Amendments clarify the definition of material and how it should be applied. The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity'. In addition, the explanations accompanying the definition have been improved. The Amendments also ensure that the definition of material is consistent across all IFRS Standards. At the moment Management is assessing the effect of new standard amendment on financial statements of the Company and the Group.

- **Interest Rate Benchmark Reform - IFRS 9, IAS 39 and IFRS 7 (Amendments)**

The amendments are effective for annual periods beginning on or after 1 January 2020 and must be applied retrospectively. Earlier application is permitted. In September 2019, the IASB issued amendments to IFRS 9, IAS 39 and IFRS 7, which concludes phase one of its work to respond to the effects of Interbank Offered Rates (IBOR) reform on financial reporting. Phase two will focus on issues that could affect financial reporting when an existing interest rate benchmark is replaced with a risk-free interest rate (an RFR). The amendments published, deal with issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative interest rate and address the implications for specific hedge accounting requirements in IFRS 9 Financial Instruments and IAS 39 Financial Instruments: Recognition and Measurement, which require forward-looking analysis. The amendments provided temporary reliefs, applicable to all hedging relationships that are directly affected by the interest rate benchmark reform, which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark with an alternative nearly risk-free interest rate. There are also amendments to IFRS 7 Financial Instruments: Disclosures regarding additional disclosures around uncertainty arising from the interest rate benchmark reform. At the moment Management is assessing the effect of new standard amendment on financial statements of the Company and the Group.

2.2 Right-of-use asset

Right-of-use asset is an asset, that represents a Company's/Group's right to use an underlying asset for the lease term. Company/Group recognize right-of-use asset to all leases, including leases of right-of-use assets in a sublease, except for leases of intangible assets, short-term leases and leases for which the underlying asset is of low value.

Initial measurement of the right-of-use asset

At the commencement date, Company/Group measures the right-of-use asset at cost. The cost of the right-of-use asset shall comprise: the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received; any initial direct costs incurred by Company/Group; and an estimate of costs to be incurred by Company/Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Company/Group incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period. Company/Group recognize the costs described as part of the cost of the right-of-use asset when it incurs an obligation for those costs.

Subsequent measurement of the right-of-use asset

After the commencement date, a Company/Group measure the right-of-use asset applying a cost model. To apply a cost model, Company/Group measure the right-of-use asset at cost: less any accumulated depreciation and any accumulated impairment losses; and adjusted for any remeasurement of the lease liability.

Company/Group apply the depreciation requirements in IAS 16 Property, Plant and Equipment in depreciating the right-of-use asset.

If the lease transfers ownership of the underlying asset to Company/Group by the end of the lease term or if the cost of the right-of-use asset reflects that Company/Group will exercise a purchase option, Company/Group shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, Company/Group shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Company/Group presents right-of-use assets separately from intangible and tangible assets in the statement of financial position.

2.3 Lease liability

Initial measurement of the lease liability

At the commencement date, Company/Group measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, Company/Group use the lessee's incremental borrowing rate.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date: fixed payments, less any lease incentives receivable; variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date; amounts expected to be payable by Company/Group under residual value guarantees; the exercise price of a purchase option if the Company/Group is reasonably certain to exercise that option; and payments of penalties for terminating the lease, if the lease term reflects Company/Group exercising an option to terminate the lease.

Variable lease payments that depend on an index or a rate include, for example, payments linked to a consumer price index, payments linked to a benchmark interest rate (such as LIBOR) or payments that vary to reflect changes in market rental rates.

Subsequent measurement of the lease liability

After the initial measurement, Company/Group measure the lease liability by: increasing the carrying amount to reflect interest on the lease liability; reducing the carrying amount to reflect the lease payments made; and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

Interest on the lease liability in each period during the lease term shall be the amount that produces a constant periodic rate of interest on the remaining balance of the lease liability. The periodic rate of interest is the discount rate or if applicable the revised discount rate. After the commencement date, Company/Group shall recognise in profit or loss, unless the costs are included in the carrying amount of another asset applying other applicable Standards, both: interest on the lease liability; and variable lease payments not included in the measurement of the lease liability in the period in which the event or condition that triggers those payments occurs.

Reassessment of the lease liability

After the commencement date, Company/Group remeasure the lease liability to reflect changes to the lease payments. Company/Group recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, Company/Group recognise any remaining amount of the remeasurement in profit or loss.

Revised discount rate

Company/Group remeasure the lease liability by discounting the revised lease payments using a revised discount rate, if there is a change in the lease term. Company/Group determine the revised lease payments based on the revised lease term or there is a change in the assessment of an option to purchase the underlying asset, assessed considering the events and circumstances described in the context of a purchase option. Company/Group determine the revised lease payments to reflect the change in amounts payable under the purchase option.

If either there is a change in the lease term or there is a change in the assessment of an option to purchase, Company/Group determine the revised discount rate as the interest rate implicit in the lease for the remainder of the lease term, if that rate can be readily determined, or the lessee's incremental borrowing rate at the date of reassessment, if the interest rate implicit in the lease cannot be readily determined.

Unchanged discount rate

Company/Group remeasure the lease liability by discounting the revised lease payments, if either:

- there is a change in the amounts expected to be payable under a residual value guarantee. Company/Group determine the revised lease payments to reflect the change in amounts expected to be payable under the residual value guarantee.
- there is a change in future lease payments resulting from a change in an index or a rate used to determine those payments, including for example a change to reflect changes in market rental rates following a market rent review. Company/Group remeasure the lease liability to reflect those revised lease payments only when there is a change in the cash flows (i.e. when the adjustment to the lease payments takes effect). Company/Group determine the revised lease payments for the remainder of the lease term based on the revised contractual payments.

Discounting revised lease payments, Company/Group use an unchanged discount rate, unless the change in lease payments results from a change in floating interest rates. In that case, Company/Group use a revised discount rate that reflects changes in the interest rate.

Lease modifications

Company/Group account for a lease modification as a separate lease if both:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, at the effective date of the lease modification Company/Group:

- allocate the consideration in the modified contract;
- determine the lease term of the modified lease; and
- remeasure the lease liability by discounting the revised lease payments using a revised discount rate.

For a lease modification that is not accounted for as a separate lease, Company/Group account for the remeasurement of the lease liability by:

- decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. Company/Group recognise in profit or loss any gain or loss relating to the partial or full termination of the lease;
- making a corresponding adjustment to the right-of-use asset for all other lease modifications.

Company/Group present lease liabilities separately from other liabilities in the statement of financial position. Company/Group present interest expense on the lease liability separately from the depreciation charge for the right-of-use asset. Interest expense on the lease liability is a component of finance costs, presented in the statement of profit or loss and other comprehensive income.

2.4 Income tax

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual profit or loss.

3 Significant accounting estimates and judgements used in the preparation of financial statements

Accounting estimates and judgments are continuously reviewed and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The preparation of financial information according to International Financial Reporting Standards as adopted by the EU requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses, and disclosures of contingencies. Changes in the underlying assumptions, estimates and judgments may have a material effect on this financial information.

In preparing these financial statements, the Group has made adjustments to prior periods.

Corrections of errors

i) The Group corrected the identified errors from the previous financial periods during the preparation of these interim financial statement. In 2019, the subsidiary AB „Ignitis gamyba“ of the Group reviewed financial statements accounting principles for revenues, receivables, and payables related to secondary power reserve, tertiary power reserve, and system restoration services (hereinafter – regulated activities), which are regulated by the National Energy Regulatory Council (NERC). Tariffs for these regulated activities for the next calendar year are set by NERC based on Group and AB „Ignitis gamyba“ forecasted expenses taking into account planned and factual revenue and expense variance in the prior financial year. In the financial statements, Group and AB „Ignitis gamyba“ reported regulated activities revenues using the accrual principle based on factual expenses incurred, i.e. regulatory activities revenues were recognized by Group and AB „Ignitis gamyba“ in such volume, which under NERC methodology, is permissible taking into consideration permissible return on investment and factual expenses for services provided incurred during the period. Due to variance between planned and factual revenues and expenses set by NERC, regulatory activities revenues and corresponding payables and other payables were corrected. Up until now, revenues were recognized in accordance to substance over form principle, following the assumption about NERC's ability to promptly and based on unilateral decision initiate legal act amendments, that would be necessary in order to establish an obligation for the company to refund the difference between mentioned regulatory planned and actual service estimates even if Group and AB „Ignitis gamyba“ is no longer providing regulatory services mentioned above.

In 2019, by reviewing accounting of previously mentioned operations, it was noted that payable or refundable amounts in the future periods depend on whether or not the Group and AB „Ignitis gamyba“ will provide these services and will carry them out in the future, i.e. these amounts are related to currently uncompleted agreements, and in such case, provision, contingent liabilities and contingent assets should not be accounted (under IAS 37 “Provision, Contingent Liabilities and Contingent Assets”). See these restatements in columns 1 – 7 presented in table below.

ii) The Group company Ignitis Polska Sp. z. o. o. based in Poland, participates in electricity trading exchange market through forward and futures contracts. The purpose of these deals is to earn profits from short-term fluctuations in electricity prices on the exchange. Ignitis Polska Sp. z. o. o. does not provide supply of electricity to final customers. Settlements are made by settling liabilities between the company and the other party to the exchange transaction, and by making a cash payment for the remaining outstanding debt. Ignitis Polska Sp. z. o. o. account for contract balances in the financial statements at fair value, and income and expenses are presented in the separate items of Profit (loss) and other comprehensive income. After reviewing contracts of Ignitis Polska Sp. z. o. o. the Group has determined that income and expense should be reported in the item of costs in Profit (loss) and other comprehensive income as profit or loss. Management's decision to amend presentation of revenue and costs is based on the fact that, under IFRS 9, transactions made by Ignitis Polska Sp. z. o. o. cannot be classified under the own use' exception, and therefore only the result of those transactions should be recognized in profit or loss. See these restatements in column 8 presented in table below.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

All amounts in thousands of euro unless otherwise stated

Retrospectively corrected condensed interim statements of financial position:

Change in management judgment on applying accounting methods

Connection fees

On 1 January 2018, the Group adopted IFRS 15 Revenue from contracts with customers and its amendments for the first time and they had a significant impact on the Group's financial statements. The Group accounted for the impact of the first-time adoption of IFRS 15 starting from 1 January 2018 using the modified retrospective approach.

Following the initial application of IFRS 15 with respect to revenue from new customer connection the Group assessed the existence of separate performance obligation through the legal point of view, i.e. if electricity distribution company had a new connection contract with the client and the distribution as a service was provided to the end customer through the client's contract with supply company, the new connection contract was treated as separate performance obligation.

Following such judgment starting from 2018 the connection fees in gas segment were recognized when connection service was provided. In electricity segment from 1 January 2018 to 1 October 2018 connection fees were deferred over the period of estimated customer relationship, which is determined based on the useful life of the newly created connection infrastructure.

Following the transfer of electricity public supply activities as of 1 October 2018, new customer connection in electricity segment was reconsidered as a separate performance obligation under IFRS 15, accordingly related revenue from 1 October 2018 was recognized when connection service was fully provided.

Management of the Group has extensively analyzed IFRS 15 accounting methods, which were also reviewed by the Bank of Lithuania as an oversight body of listed entities, also auditors were involved in the discussions. The accounting methods applied upon initial adoption of IFRS 15 were assessed as appropriate after evaluating management judgement made in a number of areas. However, following the

review of relevant industry practice, more authoritative guidance on IFRS 15 application, analysis of relatively newly applied “implied contract” concept (as per IFRS 15 requirements), and consultations with incoming auditor, the Group has reconsidered its accounting treatment.

The Group changed the accounting treatment of new customer connection fees by deferring all gas and electricity fees over the useful lives of the related assets (which represents the best management estimate for customer relationship period). According to the management such accounting treatment would fairer reflect the Group's financial performance and continuing involvement in securing the connection to the customer, as well as will allow the Group to be better comparable to its peers within the industry. This change in accounting treatment is accounted for retrospectively and comparative information is restated (see in the table below, 5 - 11).

Public Service Obligations and electricity transmission service

Public Service Obligations (PSO) and electricity transmission funds are an integral part of electricity tariff to the customer. The Group collects PSO and electricity transmission funds from business customers and end users, connected to electricity distribution grid. Collected amounts are transferred to Grid transmission operator. PSO funds are used to support and promote local production from renewable energy sources, to secure reserves of the electricity system at designated power plants, which is necessary for ensuring the state's energy security and to ensure other services related to public interest. The list of services supported by PSO is determined by the Government of the Republic of Lithuania.

Public Service Obligations (PSO) and electricity transmission funds as integral part of Electricity price, was not identified as a separate performance obligation. The distribution service as a whole, including transmission, distribution and PSO was treated as one performance obligation. Public Service Obligations (PSO) and electricity transmission price components generally are treated as a tax collected from customers, however this tax cannot be treated as sales tax, or value-added tax (VAT), since: (1) both components are charged based on production or distributed energy unit, rather than sales amount, as is applied in VAT case; (2) the Group cannot claim a refund of the tax in the event the related customer fails to pay for the services being sold; (3) the Group is charged to price risk - in case of illegal consumption, the Group's settlement amount will be determined based on current period's prices, however, the client will be charged based on historical prices. Following the above, the Management treated the Group as Principal in relation to PSO and electricity transmission price components.

During year 2019 the Group elected to change the method of accounting for to PSO and electricity transmission price components by treating the Group as an Agent. Such decision has been taken after extensive analysis of relevant industry practice and taking into consideration the facts, that the Group is not responsible for PSO projects / initiatives and the development of the transmission grid and accordingly not responsible that the funds are used for their intended purpose. The Group is not charged to any inventory risk, as well as the Group has no legal power to establish pricing of this component.

The change in accounting methods does not mean the prior management's judgment is erroneous, however allows the Group to be better comparable to its peers within the industry. This change in accounting treatment is accounted for retrospectively and comparative information is restated (see in the table below, 1).

Liquefied natural gas terminal security component fee and gas distribution service

Pursuant to Article 5.2 of the Law on the LNG Terminal, all users of the natural gas transmission system, including end-users, have to pay an additional security component along with other payments for natural gas transmission services. Payments shall be collected directly from customers, or natural gas suppliers, if the customers don't have a direct contract with the Transmission System Operator. The Group company UAB Ignitis acts as a natural gas supplier that collects LNG security component from the users.

As part of its gas trading activities in Latvia, the Group collects funds from end users for the gas distribution service and transfers them to the Latvian gas distribution network operator.

LNG Fee and gas distribution service as integral part of natural gas price, was not identified as a separate performance obligation. Following the above, the Management treated the Group as Principal in relation to LNG Fee and gas distribution service price components.

During year 2019 the Group elected to change the method of accounting for to LNG Fee and gas distribution service price components by treating the Group as an Agent. Such decision has been taken after extensive analysis of relevant industry practice and taking into consideration the facts, that the Group is not responsible for LNG projects / initiatives and the development of the distribution grid in Latvia and accordingly not responsible that the funds are used for their intended purpose. The Group is not charged to any inventory risk, as well as the Group has no legal power to establish pricing of this component.

The change in accounting methods does not mean the prior management's judgment is erroneous, however allows the Group to be better comparable to its peers within the industry. This change in accounting treatment is accounted for retrospectively and comparative information is restated (see below).

Security component revenues from TSO, following the activity of the designated supplier, are recognized as revenue in accordance with IAS 20 “Grants”, and the principles of this revenue accounting are not changed.

Net book amount at 31 December	1,204,494	1,206,921

On 1 January 2019, the reorganisation of the Group companies UAB "Ignitis" (earlier name UAB "Lietuvos energijos tiekimas") and UAB "Litgas" was finalised. The companies were reorganised by way of merger – UAB "Litgas", which ceased its activities after the reorganisation, was merged with UAB "Ignitis", which continues its activities. All assets, rights and obligations of UAB "Litgas" were taken over by UAB "Ignitis". Company's carrying amount of investment to UAB "Ignitis" increased by EUR 8,631 thousand and the investment to UAB "Litgas" was written off by the same carrying amount.

On 1 June 2019, the reorganisation of the Group companies UAB "Ignitis" and UAB "Energijos Tiekimas" was finalised. The companies were reorganised by way of merger – UAB "Energijos Tiekimas", which ceased its activities after the reorganisation, was merged with UAB "Ignitis", which continues its activities. All assets, rights and obligations of UAB "Energijos Tiekimas" were taken over by UAB "Ignitis". Company's carrying amount of investment to UAB "Ignitis" increased by EUR 26,126 thousand and the investment to UAB "Energijos Tiekimas" was written off by the same carrying amount.

During the year of 2019 the authorized capital of the following Group's companies was increased:

Subsidiary	Issue date	Amount of shares, pcs*	Nominal value per share, EUR	Total issue price	Paid amount	Amount outstanding	Date of articles amendment
UAB „Vilniaus kogeneracinė jėgainė“	2019-01-22	54,137,931	0.29	15,700	15,700	-	2019-01-30
UAB „Ignitis grupės paslaugų centras“	2019-06-13	847,149	0.29	260	260	-	2019-06-28
Total				15,960	15,960	-	

* there is stated amount of shares that belong to the Company

On 14 January 2019, a decision was passed to increase the share capital of the Group's company UAB „Vilniaus Kogeneracinė Jėgainė“ up to EUR 52,300 thousand. The initial contribution of EUR 15,314 thousand was paid by the Company in cash and was made a non-cash contribution amounting to EUR 386 thousand (business consultations relating to engineering and construction preparatory works for Vilnius co-generation power plant). On 30 January 2019, the new version of the Articles of Association of the Group's company UAB „Vilniaus Kogeneracinė Jėgainė“ related to increase in share capital was registered with the Register of Legal Entities.

On 28 February 2019, a decision of general meeting of shareholders was passed to increase the share capital of the Group's company UAB „Ignitis grupės paslaugų centras“ (earlier name UAB „Technologijų ir inovacijų centras“) from EUR 6,440 to EUR 6,960 thousand. The right to acquire 897,326 shares par value of EUR 0.29 (total emission value – EUR 260,2 thousand) per share is granted to UAB „Ignitis gamyba“ (earlier name AB „Lietuvos energijos gamyba“). On 28 June 2019, the new version of the Articles of Association of the Group's company UAB „Ignitis grupės paslaugų centras“ related to increase in share capital was registered with the Register of Legal Entities.

On 15 April 2019 the Company decided to reduce the authorized capital of the subsidiary UAB NT Valdos from EUR 41,385 thousand up to EUR 5,000 thousand. Eur, cancelling 1,256,400 shares with the nominal value of each of EUR 28.96, total nominal value of cancelled shares is EUR 36,385 thousand. The purpose of the reduction of the authorized capital is to pay out the funds to the shareholders. The subsidiary disbursed the share capital reduction to the Company during July – September of 2019 and the Company accounted for EUR 213 thousand reversal of investments in subsidiaries impairment. On 5 July 2019 a new version of the Articles of Association of the Subsidiary Company related to the reduction of the authorized capital was registered with the Register of Legal Entities.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

All amounts in thousands of euro unless otherwise stated

During the year 2019 authorized capital of the Group's companies reduced and reversed impairment of investments:

Subsidiary	Book value 31 December 2018	Authorized capital	Appropriation of loss	Reversal of impairment	Book value 31 December 2019
UAB „NT valdos“	36,173	(36,385)	-	9,035	8,823
UAB „Ignitis“	43,125	-	-	4,010	47,136
Total:	79,298	(36,385)	-	13,045	55,959

On 31 December 2018, the Company announced that in developing the green energy activity and aiming to optimise operations of the controlled companies engaged in renewable energy production it approved the establishment of a new company UAB „Ignitis renewables“ (earlier name UAB „Lietuvos energija renewables“), which will become a transferee of shares of all already controlled and developed wind power parks. This decision was approved by the holder of the Company's shares – the Ministry of Finance of the Republic of Lithuania. The Articles of Association of UAB „Ignitis renewables“ were registered with the Register of Legal Entities on 14 January 2019.

During the year of 2019 new Group's companies were established:

Subsidiary	Issue date	Amount of issued shares, pcs*	Nominal value per share, EUR	Total issued nominal price	Share premium	Paid amount	Amount outstanding	Date of articles amendment
UAB „Ignitis renewables“	2019-01-14	3,000	1	3	44,697	44,700	-	2019-01-14
Total:				3	44,697	44,700	-	

On 28 March 2019, the share purchase and sale agreements were signed regarding the transfer of 100% of shares of the Company's subsidiaries developing projects on renewable energy resources to UAB „Ignitis renewables“. Upon the transfer of shares of the renewable energy companies within the Group, the Company's ownership interest in the companies remains unchanged. The shares of the renewable energy companies are transferred for the carrying amount of investments in shares and the related liabilities, therefore the impact of the transfer of shares on the financial performance of the Company and the Group is neutral.

During the year of 2019 the Company disposed these investments to its subsidiary UAB „Ignitis renewables“:

Subsidiary	Disposal date	Disposed shares, pcs	Investment value, EUR	Paid amount*	Amount outstanding
UAB „Eurakras“	2019-03-28	159,549	18,735	18,735	-
UAB „Vėjo vatas“	2019-03-28	100,000	6,132	6,132	-
UAB „Vėjo gūsis“	2019-03-28	257,000	12,919	12,919	-
UAB „VVP investment“*	2019-03-28	8,640	1,962	1,962	-
Total:			39,748	39,748	-

*Company's liability for unpaid shares of VVP Investment was transferred to UAB „Ignitis renewables“ as at 28 March 2019.

UAB Ignitis Grupė, Company code 301844044, Žvejų g. 14, LT-09310 Vilnius, Lithuania

Company's dividend income from the subsidiaries during 2019 and 2018 is disclosed in the Note 15.

Management's benefits:

	Group		Company	
	2019	2018	2019	2018
Salaries and other short-term benefits	4,578	3,681	1,170	815
Whereof: Termination benefits and benefits to Board Members	433	402	118	118
Number of management staff	54	55	12	10

Management includes heads of administration and their deputies.

17 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of directors that makes strategic decisions.

In year 2018 a new strategy of the Group was approved. This strategy sets out four main lines of business for the Group - strategic generation, green generation, commercial organization and distribution grid operator. Following the adoption of the new strategy, steps have been taken to refine the actions due. Following the changes in the Group's structure, which were completed in 2019 2nd quarter, management follows its performance by operating segments that are consistent with the line of business specified in the Group's strategy.

In management's opinion, the Group has four operating segments:

- Distribution (carried out by AB „Energijos Skirstymo Operatorius“)
- Strategic generation (carried out by UAB „Ignitis Gamyba“ (except Kaunas Algirdas' Brazauskas Hydroelectric Power Plant));
- Green generation (carried out by AB „Ignitis gamyba“ Kaunas Algirdas' Brazauskas Hydroelectric Power Plant, UAB „Vilniaus Kogeneracinė Jėgainė“, UAB „Kauno Kogeneracinė Jėgainė“, UAB „Eurakras“, Tuuleenergia OU, UAB „Vėjo Gūsis“, UAB „Vėjo Vatas“, UAB „VVP Investment“, UAB „Ignitis Renewables“, Pomerania Inval Sp.z.o.o)
- Commercial organization (carried out by UAB „Ignitis“, UAB „Energijos Tiekimas“ (until 31 May 2019), Ignitis Eesti OÜ, Ignitis Latvija SIA, Ignitis Polska Sp.z o.o).

The following services and entities comprise the other segments:

- support services (UAB „NT Valdosa“, UAB „Ignitis Grupės Paslaugų Centras“, UAB „Verslo Aptarnavimo Centras“ and UAB „Transporto Valdymas“);
- non-core activities (UAB „Energetikos Paslaugų ir Rangos Organizacija“, UAB „Duomenų Logistikos Centras“);
- service entities (UAB „Elektroninių Mokėjimų Agentūra“);
- as well as parent company UAB „Ignitis grupė“, which does not constitute a separate operating segment, however it is disclosed separately, as its net profit exceeds 10% of profit of all profit generating segments. The Group's support service entities and special purpose entities are aggregated to a single segment as none of them individually meet recognition criteria of an operating segment.

The Group has single geographical segment – the Republic of Lithuania, electricity sales in Latvia and Estonia are not significant for the Group. The chief operating decision-maker monitors the results with reference to the financial reports that have been prepared using the same accounting policies as those used for the preparation of the financial statements in accordance with IFRS, i.e. information on profit or loss, including the reported amounts of revenue and expenses. The primary performance measure is adjusted EBITDA, which is calculated based on data presented in the financial statements prepared in accordance with IFRS as adjusted for selected items which are not recognized under IFRS. The Group's Board does not analyze assets and liabilities of the segments.

UAB Ignitis Grupė, Company code 301844044, Žvejų g. 14, LT-09310 Vilnius, Lithuania

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

All amounts in thousands of euro unless otherwise stated

18 Business combinations

In accordance with Company's Board of Directors and Company's subsidiary UAB "Ignitis Renewables" decisions, UAB "Ignitis Renewables" entered into share purchase agreement for 100% shares and shareholder's claim rights in Pomerania Invall Sp. z. o. o. on 2 May 2019. Thereafter, the Company acquired indirect 100% shareholding in Pomerania Invall Sp. z. o. o. because Company's subsidiary UAB "Ignitis Renewables" owns 100% of shares in Pomerania Invall Sp. z. o. o., and the Company owns 100% of shares in UAB "Ignitis Renewables". As at 30 September 2019, the ownership property right was fully owned by the Company's subsidiary UAB "Ignitis Renewables". The total amount of the investment to Pomerania Invall Sp. z. o. o. is EUR 20,737 thousand. The investment was fully paid as at 31 December 2019.

As at 31 December 2019 all rights to the shares ownership are fully controlled Company's subsidiary UAB "Ignitis Renewables" and overall investment in Pomerania Invall Sp. z. o. o. comprised EUR 20,737 thousand. As at 31 December 2019 the investment is fully paid.

The Group applied the purchase method to account for these business combinations according to the provisions of IFRS 3. Under the latter method, the acquisition cost is measured as the sum of the fair values, at the date of exchange, of assets given, liabilities incurred and equity instruments issued in exchange for control of the business being acquired.

During business combination the Group established that the difference between the acquisition cost of the businesses and the fair value of the net assets acquired represents goodwill and/or one and/or several items of assets have probably been acquired.

The Group's management had not finalized the assessment of the initial accounting for business combinations as at 31 December 2019 as the period for the assessment of the business combination has not expired yet which will end when the necessary information about facts and circumstances that existed at the acquisition date will be obtained and which cannot be longer than one year after the acquisition date.

As at 31 December 2019, temporary values of assets and liabilities, the assessment of which was not completed, included as follows: fair value of net assets and value of assets and goodwill identified on business combination. During the assessment period the Group will recognize adjustments to the temporary values as if the accounting for business combination was completed at the acquisition date. Accordingly, the Group will review, if appropriate, comparative figures presented in the financial statements and also, if appropriate, will perform any changes in the impact of depreciation, amortization or other income that were recognized in nearing the completion of the initial accounting.

On business combination, assets and liabilities of Pomerania Invall Sp. z. o. o. were identified with the following fair values at the date of acquisition:
