## GENERAL INFORMATION

Šiaulių Bankas AB was registered as a public company in the Enterprise Register of the Republic of Lithuania on 4 February 1992. The Bank is licensed by the Bank of Lithuania to perform all banking operations provided for in the Law on Banks of the Republic of Lithuania and the Charter of the Bank. In this document, Šiaulių Bankas AB is referred to as the Bank, Šiaulių Bankas AB and its subsidiaries (described in more detail in Note 2) - the Group.

The Head Office of the Bank is located in Šiauliai, Tilžės str. 149, LT-76348. At the end of the reporting period the Bank had 59 customer service outlets (2019: 60 outlets). As at 30 September 2020 the Bank had 755 employees (31 December 2019: 737). As at 30 September 2020 the Group had 851 employees (31 December 2019: 831 employees).

The Bank accepts deposits, issues loans, makes money transfers and documentary settlements, exchanges currencies for its clients, issues and processes debit and credit cards, is engaged in trade finance and is investing and trading in securities, as well as performs other activities set forth in the Law on Banks of the Republic of Lithuania and the Charter of the Bank.

The Bank's shares are listed on the Baltic Main List of the Nasdaq Stock Exchange.

This condensed interim financial information for the nine month period ended 30 September 2020 has been prepared in accordance with IAS 34, "Interim Financial Reporting" as adopted by the EU. The condensed interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2019, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by EU. Except for the points described below, all the accounting policies applied in the preparation of this condensed interim financial information are consistent with those of the annual financial statements of the Bank for the year ended 31 December 2019.

### Income tax

Income tax in the interim periods is accrued using the tax rate that would be applicable to expected total annual earnings.

### New and amended standards, and interpretations

The Bank's management do not believe the newly published standards, amendments and interpretations that are mandatory for the Bank's reporting periods beginning on or after 1 January 2020 will have a material impact on the Bank's financial statements, also there are no new standards, amendments and interpretations that are mandatory for the Bank with effect from 2020, and that would have a material impact on the Bank's financial information.

### Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates. In preparing these condensed interim financial statements, the significant judgements made in applying Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the year ended 31 December 2019, except for judgements and estimations used for calculation of impairment, which were revised to reflect the changes in environment caused by global Covid-19 pandemic. These judgements and estimates are described in more detail in Notes 1 and 10. It should be noted that at the moment of producing the financial reports there was little clarity regarding further development scenarios of Covid-19 pandemic and significant uncertainties regarding further global, country and sector development trends existed, therefore there is a high probability that actual results may deviate from the estimated.

These financial statements combine the consolidated financial statements for the Group and stand-alone financial statements of the Bank. Such format of reporting was adopted to ensure consistency of presentation with the format prescribed by the Bank of Lithuania and applied for statutory reporting.

No significant amounts of the Group's and the Bank's income or expenses are of a substantial seasonal nature.

## NOTE 1 LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES

Credit risk is defined as the risk for the Group to incur losses due to the Group's customers' failure to fulfil their financial obligations towards the Group. Credit exposures arise principally in lending activities and it is the most significant risk in the Group's banking activities. There is also credit risk in investment activities that arise from debt securities and in the Group's asset portfolio as well as in the off-balance sheet financial instruments, such as loan commitments, guarantees and letters of credit.

The Bank regularly reviews its credit risk management policies which include lending policies, credit risk limit control, other credit risk mitigation measures as well as the internal control and internal audit of credit risk management.

The Bank takes risks only in the fields, which are well known to it and where it has long-term experience, trying to avoid excessive risk in transactions that can have negative influence to the big portion of shareholders' equity but seeks the sufficient profitability which, in terms of increasing competition, would ensure the stable Bank's position in the market and would increase the Bank's value. In assessing exposure to credit risk, the Bank adheres to the principle of prudence.

The aim of the Bank's credit risk management policy is to ensure that the conflict between interests of staff or structural units is avoided. With respect to provision of credits to clients, the principle stating that profit should not be earned at the expense of excessive credit risk is observed.

Maximum exposure to credit risk before collateral held or other credit enhancements:

## LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES NOTE 1 (continued)

Loans are assigned to stages using the following principles (a deviation from these principles is allowed in the process of individual loan assessment based on contract-specific circumstances if it would result in more precise assessment of the risk of the contract):

Stage 1 loans: loans with no increase in credit risk observed.

Stage 2 loans: loans with an increase in credit risk observed. Main reasons for determining an increase in credit risk are: deterioration of borrower's financial status from the initial (this criteria is not applicable to the low credit risk loans, i.e. loans that have internal borrower's financial status assessment grades "very good" or "good" or investment grade credit ratings by external credit rating agencies), payment delay of over 30 days, and other objective criteria showing an increase in credit risk.

Stage 3 loans: defaulted loans. Main reasons for determining a default are: payment delay of over 90 days, bankruptcy of the borrower, termination of the contract, start of the foreclosure procedures and other objective criteria.

Many households and businesses will be negatively affected by the unprecedented nature and extent of the current health and safety measures. While the definite outcome is still uncertain, there is no doubt that many borrowers, especially from certain sectors, will face financial difficulties as their revenues will shrink significantly and they will face difficulties in servicing loans by initial schedule. As of 30 September 2020, taking into account that Covid-19 pandemic has affected the possibility of the borrowers to repay the loans but concrete borrowers or contracts cannot yet be identified from the data available from borrowers' financial statements or level of payment delays, an increase of credit risk was assessed on a collective basis – i.e. significant increase of credit risk was recognized for loans granted for sectors that the Bank's management recognized as risky. The Bank has recognized an increased credit risk in these main sectors: trade, hotels and restaurants, education, healthcare and social work, recreation, certain subsectors of professional, scientific, technical, administrative and support service activities. In determining these sectors, significant accounting judgements were made, judgements were based on information and lists of impacted entities published by the institutions of Republic of Lithuania. Gross value of loans that were assigned to stage 2 based on the criteria of significant credit risk increase in sector amounted to EUR 112,291 thousand (there were no loans assigned to stage 2 based on this criteria on 31 December 2019).

In April 2020 the Bank joined the moratoria initiated by the Association of Lithuanian Banks (ALB) that offer principal repayment deferral solutions for individual and business customers. Until 30 September 2020, Group's approved applications for modification of loan payment schedules based on Covid-19 implications on the borrowers amounted to EUR 246,184 thousand, of which EUR 89,874 thousand were according to ALB moratoria conditions. Group follows legal treatment for loan contract amendments, i.e. amended loan contracts are accounted for as modifications. As interest rate is not modified as a condition for moratoria, no material result from contract modifications was recorded (during nine month period ended 30 September 2020, loan modifications resulted in net loss of EUR 34 thousand, which was included in income statement line "Other operating income").

## LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES (continued) NOTE 1

Many households and businesses will be negatively affected by the unprecedented nature and extent of the current health and safety measures. While the definite outcome is still uncertain, there is no doubt that many borrowers, especially from certain sectors, will face financial difficulties as their revenues will shrink significantly and they will face difficulties in servicing loans by initial schedule. As of 30 September 2020, taking into account that Covid-19 pandemic has affected the possibility of the borrowers to repay the amount borrowed but concrete borrowers or contracts cannot yet be identified from the data available from borrowers' financial statements or level of payment delays, an increase of credit risk was assessed on a collective basis – i.e. significant increase of credit risk was recognized for finance lease receivables granted for sectors that the Bank's management recognized as risky. The Bank has recognized an increased credit risk in these main sectors: trade, hotels and restaurants, education, healthcare and social work, recreation, certain subsectors of professional, scientific, technical, administrative and support service activities. In determining these sectors, significant accounting judgements were made, judgements were based on information and lists of impacted entities published by the institutions of Republic of Lithuania. Gross value of finance lease receivables that were assigned to stage 2 based on the criteria of significant credit risk increase in sector amounted to EUR 31,507 thousand (there were no finance lease receivables assigned to stage 2 based on this criteria on 31 December 2019).

## NOTE 6 CAPITAL (continued)

### Reserve for acquisition of own shares:

On 28 March 2019 the ordinary general meeting of shareholders made a decision to form a reserve for acquisition of own shares from retained earnings. The reserve can be used for two purposes – to preserve the market price of Bank's shares and to acquire the shares that will be granted to Group's employees as part of variable remuneration.

During the nine month period ended 30 September 2020 the Bank acquired 780 thousand own shares for EUR 320 thousand. The acquired shares were granted to the employees of the Bank and its subsidiaries as a deferred part of variable remuneration for 2016 and 2017. As of 30 September 2020, the Bank did not possess its own shares.

During the nine month period ended 30 September 2020 the Bank acquired 1,176 thousand own shares for EUR 618 thousand. The acquired shares were granted to the employees of the Bank and its subsidiaries as a deferred part of variable remuneration for 2015, 2016 and 2017. As of 30 September 2019, the Bank did not possess its own shares.

### Other equity:

Other equity consists of amount that corresponds to the obligation to present Bank's shares to Group's employees as part of variable remuneration.

Impairment expenses for loans and finance lease receivables increased significantly during the first nine months of 2020. The impact of Covid-19 pandemic did not yet reflect in the borrowers' financial data available for the Bank or in payment delays, therefore in order to estimate the impact of the pandemic the reestimation of the parameters used for impairment loss calculations and collective risk estimation of borrower groups defined by sector was performed. These changes in accounting estimates resulted in a recognition of impairment loss of EUR 6,197 thousand during the first nine months of 2020: due to change in parameters the Group recognized an impairment loss of EUR 4,370 thousand, additional impairment loss of EUR 1,827 was recognized due to the contracts that the significant credit risk increase was recognized based on the collective assessment of Covid-19 influence to sector.

## NOTE 10 IMPAIRMENT LOSSES (continued)

As environmental factors changed significantly due to Covid-19 influence, assumptions and estimates used in probability of default estimations were changed. Due to dynamic and fast-paced changes in operating environment there are no reliable development scenarios and macroeconomic forecasts, therefore the scenarios used were more based on expert judgement and long term economic growth perspectives were taken into account. Assumptions regarding values of collaterals and values of positions were not changed, they are the same as used in financial statements for 2019. For the reporting date of 30 September 2020, taking into account that Covid-19 pandemic has affected the possibility of the borrowers to repay the loans but concrete borrowers or contracts cannot yet be identified from the data available from borrowers' financial statements or level of payment delays, an increase of credit risk was assessed on a collective basis – i.e. significant increase of credit risk was recognized for loans granted for sectors that the Bank's management recognized as risky (sector risk assessment is described in more detail in Note 1). It is planned that the individual assessment of the borrowers capacities to pay back the loans taking into account the impact of pandemic will be performed until the end of the year, therefore the collective risk assessment will no longer be necessary unless new uncertainties arise. It should be noted that at the moment of producing the financial reports significant uncertainties regarding further global, country and sector development trends existed, therefore there is a significant probability that actual results may deviate from the estimated.

## NOTE 13 LIQUIDITY, MARKET AND OPERATIONAL RISKS

### Liquidity risk

Liquidity risk means the risk that the Bank is unable to meet its financial obligations in time or that it will not manage to receive financial resources during a short time by borrowing or selling the assets.

#### Liquidity risk management process

The liquidity risk management depends on the Bank's ability to cover the cash shortage by borrowing from the market and the liquidity of the market itself. Liquidity risk management is regulated by the Procedures for Liquidity Risk Management approved by the Board of the Bank. The management of the current and non-current liquidity risk is distinguished in the mentioned procedures. The current liquidity is based on the control of the incoming and outgoing cash flow. The non-current liquidity is managed on the limit system basis.

No Bank's liquidity situation deterioration was observed during Covid-19 epidemic situation.

Tables below present the assets and liabilities according to their remaining maturity defined in the agreements. However, actual maturity of the particular types of assets and liabilities may be longer as, for example a portion of loans and deposits is extended and thus the real repayment terms of short-term loans and demand deposits move forward.

The structure of the Group's assets and liabilities by maturity as at 30 September 2020 was as follows:

## LIQUIDITY, MARKET AND OPERATIONAL RISKS (continued) NOTE 13

### Operational risk

Operational risk is the risk to incur losses due to inadequate internal control processes or incorrect process implementation, errors and/or illegal actions of employees, malfunctioning of information systems or external incidents. Unlike other risks (credit, market, liquidity), which are not being taken on purposefully, with anticipation of benefits, operational risk occurs naturally in the course of Bank's business.

Covid-19 epidemic situation significantly impacted the organization of Bank's activities and activated certain business continuity management processes. Much attention was devoted to assurance of continuity of services, management of risk factors related to organization of activities during the quarantine. Due to quarantine restrictions servicing in physical customer service points was reorganized, customers encouraged to use electronic service channel when possible. Possibility to work from home was organized for some employees, additional security measures were organized for employees.

In 2020, Bank's attention is further devoted to Bank's business continuity management, outsourcing, improvement of internal control organization and formalization of data and information quality assurance processes. In the first half of 2020, banking product creation and development process was renewed. It includes all new and (or) modified products and services. The goal of this process is to avoid unforeseen risks in banking activities, help to assure quality of new and (or) modified products and services. Bank's business continuity management regulations were also updated, in which structure and components of business continuity plan were modified. Other bank's continuity planning documents were updated, Crisis Management Commission composition was renewed, its regulations were prepared.

## FINANCIAL ASSETS AND LIABILITIES MEASURED AT FAIR VALUE NOTE 14

Types of inputs used in valuation techniques determine the following fair value hierarchy:

- Level I – Quoted prices (unadjusted) or public price quotations in active markets for identical assets or liabilities;
- Level II – Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);
- Level III – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

During the nine month period ended 30 September 2020, the process of fair value measurement did not change significantly as compared to the process described in the annual financial statements for the year 2019. For the valuation of financial assets and liabilities purposes, estimates, valuation techniques and inputs used to develop those measurements have not changed significantly during the nine month period ended 30 September 2020. The outcomes Covid-19 pandemic may have an impact on fair values of financial assets and liabilities, but due to high degree of uncertainty and lack of reliable forecasts it is impossible to estimate it reliably at the moment of producing the interim financial statements.

## NOTE 16 SELECTED INFORMATION OF FINANCIAL GROUP

According to local legislation the Bank is required to disclose certain information for the Financial group. As of 30 September 2020 and 31 December 2019 the Bank owned the following directly controlled subsidiaries included in the prudential scope of consolidation (the Bank and four subsidiaries comprised the Financial group, all of the entities attributable to Financial Group operate in Lithuania):

1. Šiaulių Banko Lizingas UAB (finance and operating lease activities),
2. Šiaulių Banko Investicijų Valdymas UAB (investment management activities),
3. Šiaulių Banko Turto Fondas UAB (real estate management activities),
4. SB Lizingas UAB (consumer financing activities).

In the Financial Group financial statements, the subsidiaries of the Bank that are not included in the Financial Group are not consolidated in full as would be required by IFRS 10 but presented on the consolidated balance sheet of the Financial Group as investments in subsidiaries at cost less impairment, in the same way as presented on the balance sheet of the Bank. This presentation is consistent with the regulatory reporting made by the Bank according to the Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (CRR).

## NOTE 17 EVENTS AFTER THE BALANCE SHEET DATE

In October 2020, the management of Šiaulių Bankas took decision to optimize the structure of its subsidiaries. The Bank will have three major directly controlled subsidiaries operating in the areas of leasing, life insurance and real estate management. The strategy and activities of SB Lizingas UAB and life insurance SB Draudimas UAB will not change. The companies working with foreclosed assets will be reorganized by merging SBTF UAB and Pavasaris UAB, that are discontinuing their operations, with Šiaulių Banko Turto Fondas UAB, which will continue to operate under the new name SB Turto Fondas UAB. Šiaulių Banko Investicijų Valdymas UAB will be liquidated, Minera UAB will be sold. The latter two companies will be categorized as subsidiaries held for sale and the result of their activities will be accounted for as result of discontinued operations. Had these companies been classified as subsidiaries held for sale from the beginning of this year, the result of discontinued operations for the nine month period ended 30 September 2020 would have been a profit of EUR 128 thousand.

ADDITIONAL INFORMATION

Interim information of Šiaulių Bankas AB (hereinafter — the Bank) of nine months covers the period from 01 January 2020 to 30 September 2020.

The description of alternative performance indicators is available on the Bank's website at:

[Home page](#) › [To Bank's Investors](#) › [Financial statements, ratios and prospectuses](#) › [Alternative performance measures](#).

## OPERATING RESULT

- *Šiaulių Bankas Group earned EUR 34.2 million of unaudited net profit during three quarters of 2020*
- *Due to active household lending activities, housing and consumer finance portfolio grew by 6% in 3Q and amounted to EUR 431 million*
- *In the first 9 months of this year, more than EUR 200 million of new business loan agreements were signed*
- *Updated digital services - on-line banking and mobile application - were introduced to clients*

Šiaulių Bankas Group earned EUR 34.2 million of unaudited net profit during three quarters of this year (EUR 40.6 million at the same time last year). Operating profit before impairment losses and income tax for the nine months of this year amounted to EUR 51.3 million, which is by 2% less than in the corresponding period last year.

Net interest income increased by 8% compared to the same period in 2019 and amounted to EUR 56.6 million. Net fee and commission income for the three quarters of this year was EUR 12 million, which is by 8% less than in the first three quarters of last year.

Mainly due to negative country's macroeconomic outlook for this year, additional provisions of EUR 0.8 million were recognised for possible impairment losses. Provisions for the three quarters amount to EUR 9.1 million, compared to EUR 4.9 million for the first nine months of last year. At the end of 3Q, the cost of risk ratio (CoR) stood at 0.7% (compared to 0.4% at the end of 3Q last year).

The operating efficiency of the Group remains high - the cost / income ratio at the end of 3Q was less than 38.8% (39.9% in the corresponding period of the previous year) and the return on equity (ROE) was 13.9% (19.1% at the end of 3Q last year).

The capital and liquidity positions remain sound and prudential requirements are met with a large reserve - the liquidation coverage ratio (LCR) increased from 223% to 309%\* during the third quarter and the capital adequacy ratio (CAR) is at 18.7%\* (\*Forecast data).

### Overview of Business Segments

#### *Business and Private Clients Financing*

As household expectations and consumption continued increasing, we recorded a strong demand for household lending - the mortgage and consumer financing portfolio grew by 6% to EUR 431 million over the quarter (increased by 86% compared to the end of 3Q last year). The mortgage portfolio alone grew by 8% to EUR 267 million during the quarter.

Even though economic uncertainty hampered corporate investment and development projects, the Bank was active in the corporate financing market - more than EUR 200 million of new credit agreements were signed in 9 months of this year. Corporate loan portfolio stood at EUR 1.08 billion at the end of the 3Q (2% less than at the end of the 2Q).

The Bank's total loan and leasing portfolio decreased by 1% during the 3Q to EUR 1.74 billion.

In 3Q, the Bank continued intensively working to set up a EUR 200 million renovation fund with the European Investment Bank (EIB). The terms of the operational agreement between the Bank and the EIB are being finalized, and active negotiations are under way with the potential creditors and investors in the fund's equity. The Bank plans to launch the renovation fund from the beginning of 2021.

#### *Daily Banking*

After the end of national lockdown, clients kept actively using banking services again - in the 3Q of this year, net fee and commission income increased by 22% compared to the second quarter to EUR 4.3 million.

In 3Q, more than 7 thousand new private customers and more than 500 business customers started using the Bank's services. Over the year, the portfolio of service plans used by private clients increased by 16% and the yearly change of corporate clients stands at 7% (48% of private and 55% of business clients have already subscribed to service plans).

The number of payment cards increased by 11% (to 172 thousand) compared to the same period last year (the number of card payments increased by 25% YoY). The demand for cash also increased slightly, with the number of cash withdrawal transactions increasing by 6% compared to the same period last year.

Customer service units located in the most affected cities by COVID-19 are subject to early registration of customers for the visit. If necessary, the Bank is ready to expand the network of book in advance for visit service units. However, for the convenience of customers, the Bank maintains all the service units operating at their normal business hours with all protective measures.

During the 3Q, the new BETA version of the on-line banking was introduced to customers, and at the end of October, customers started using the new mobile app.

#### *Saving and Investing*

The deposit portfolio increased by 12% since the beginning of the year and stood at EUR 2.27 billion at the end of 3Q. Demand deposits increased by 24% or EUR 269 million, while the term deposit portfolio decreased by EUR 30 million. The loan-to-deposit ratio at the end of 3Q stood at 76% (81% for 3Q 2019). While having high liquidity buffers and in order to lower funding costs, interest rates on term deposits have been reduced from 4Q.

#### **Updated key performance indicators for 2020**

In relation to the milder than estimated impact of the COVID-19 pandemic on the business environment and development of Lithuania's economy, the Bank updated financial forecasts for this year in September. According to the updated forecasts, the Group's cost of risk ratio (CoR) will not exceed 0.8%, and the annual return on equity (ROE) will be around 12%. The cost to income ratio (C/I), non-performing exposure ratio (NPE), risk management, market share and customer satisfaction goals remain unchanged.

## COVID-19

Following the outbreak of the coronavirus pandemic in March, quarantine was announced in Lithuania on 16 March. In response to the Government's decisions and recommendations, a decision was made to reduce the number of operating units, ensuring the conditions for customers to receive services remotely. At the beginning of April, the number of operating units was reduced from 60 to 21 units, ensuring operations in the main cities and towns of Lithuania. With the gradual easing of quarantine conditions in the country, additional units were gradually opened from late April to June. As of June 1, all branches of the Bank were already open at their regular business hours.

#### **Aids for customers affected by COVID-19**

In the course of this year, uncertainty over COVID-19 reduced lending volumes. In order to alleviate the situation of distressed customers in the context of COVID-19, Šiaulių Bankas, together with other Lithuanian credit companies, signed a moratorium on temporary suspension of credit liabilities in April. The moratoria were extended until September 30.

The moratorium on assistance to private customers undertakes to allow all private customers to defer their mortgage payments for up to one year and leasing and consumer loans for up to six months, without changing the terms of the agreement or interest. Under the moratorium for corporate customers, the bank undertook to defer loan payments to companies for up to 6 months without changing agreement terms and interest (the moratorium applies to business loans totalling up to EUR 5 million per group of companies which have not had significant payment delays in the last one year).

As at 30 September, deferrals for COVID-19 loan repayments amounted to EUR 228 million in the Bank's total loan portfolio (735 clients). The largest part of deferred payments consists of deferrals for legal entities - EUR 217 million (444 clients), the remaining part of EUR 11 million - for individuals (291 client). Credit deferrals were mainly requested by companies operating in the real estate, wholesale and retail trade, accommodation and catering, and manufacturing sectors. Most customers plan to return to regular payments, and only a small number are likely to apply for additional restructuring.

An agreement has also been signed with the state-owned financial institution INVEGA on the financing of soft loans for the businesses most affected by COVID-19. Since the start of quarantine, the Bank has provided loans of EUR 46.5 million to more than 500 companies under state business support programs.

## COMPLIANCE WITH PRUDENTIAL REQUIREMENTS

With revenues growing faster than expenses, operational efficiency remains strong - a cost to income ratio of the Group comprised 38.8 per cent at the end of the third quarter. (in the corresponding period last year, the ratio was 39.9 per cent) Information on the profitability ratios is available on the website of Šiaulių Bankas at:

[Home page](#) › [To Bank's Investors](#) › [Financial statements, ratios and prospectuses](#)

Capital and liquidity position remain robust - prudential requirements are implemented with adequate reserve. According to the data as of 30 September 2020 the Bank complied with all the prudential requirements set out by the Bank of Lithuania. Data are available on the website of Šiaulių Bankas at:

[Home page](#) › [To Bank's Investors](#) › [Financial statements, ratios and prospectuses](#)

## RATINGS

Consistent capitalization and sustained improvement in profitability, supported by lending growth and good margins, were evaluated by international rating agency Moody's Investors Service on 16 May 2019 which upgraded deposit ratings to Šiaulių Bankas and set them as follows:

- a long-term deposit rating – Baa2;
- a short-term deposit rating - P-2;
- rating outlook - Stable.
