Registration No.40003000642, registered address: 20 Vagonu street, Riga, LV-1009

---

**ASSET DISTRIBUTION DEED**

Riga

02.09.2016

No. \_\_\_\_\_

The extraordinary meeting of shareholders of the Joint Stock Company “Latvijas Gāze” (hereafter, the Company) held on 2 September 2016 adopted Decision No. \_\_\_\_\_ “\_\_\_\_\_” (hereafter, the Reorganisation Decision) approving the Spin-off Decision No. \_\_\_ dated 2 September 2016 of the Joint Stock Company “Latvijas Gāze” (hereafter, the Spin-off Decision) and Asset Distribution Deed No. \_\_\_ dated 2 September 2016 of the Joint Stock Company “Latvijas Gāze” (hereafter, the Deed).

The Deed is prepared pursuant to Section 4.1 of the Spin-off Decision and requirements of Article 355(3) of the Commercial Law.

On 24 May 2016, the Management Board of the Company approved the draft Deed and authorised the chairman of the Management Board Aigars Kalvītis and members of the Management Board Zane Kotāne and Gints Freibergs to sign the Deed after the approval thereof at the meeting of shareholders of the Company.

**1. Composition of the Assets**

In order to meet the requirements imposed on the Company by the Amendments to the Energy Law adopted by the Parliament on 11 February 2016 and pursuant to Section 4.5 of the Spin-off Decision, the Company shall separate and within one month as of the effective date of the reorganisation transfer to the newly established acquiring company – the Joint Stock Company “Conexus Baltic Grid” (hereafter, the Acquiring Company) the following assets of the Company (hereafter, the Assets) required for business operations related to natural gas storage and transmission:

- 1) fixed assets ensuring technological processes at Inčukalns underground gas storage facility (technological equipment, well, buildings and structures, piping, etc.);
- 2) buffer gas required for operation of Inčukalns underground gas storage;
- 3) fixed assets required for natural gas transmission operations (technological equipment, well, buildings and structures, piping);
- 4) intangible investments (IT software) required for natural gas transmission and storage operations;
- 5) natural gas in pipelines – required for transmission operations;
- 6) fixed assets required for management operations of the Acquiring Company (including the building at 6 Aristida Briāna street, Riga);
- 7) accounts receivable and other short-term assets directly attributable to natural gas transmission and storage operations;
- 8) liabilities – revaluation reserve for the fixed assets to be transferred to the Acquiring Company;

- 9) liabilities – deferred expenses relating to the EU projects within the scope of which the natural gas transmission or storage assets were built;
- 10) liabilities – deferred corporate income tax liability arising from the transferred fixed assets;
- 11) liabilities – commitments in respect to payments under the collective agreement with the transferred employees;
- 12) liabilities – other short-term commitments directly attributable to natural gas transmission and storage operations;
- 13) liabilities – other equity reserves attributable to natural gas transmission and storage operations.

## **2. Spin-off Balance Sheet**

The precise composition of the Assets shall be identified according to the Spin-off Balance Sheet and the transcript thereof approved by the Management Board of the Company (hereafter, the Spin-off Balance Sheet). The Spin-off Balance Sheet shall be prepared in accordance with the Law on Annual Accounts.

The balance sheets for the Company's natural gas transmission and storage businesses as well as assets and liabilities of the management services shall be used as the basis for the Spin-off Balance Sheet, which shall be included in the Spin-off Balance Sheet employing the principle of two-level allocation of assets and liabilities. The management's assets and liabilities shall be at first divided into transferable and non-transferable assets and liabilities. The transferable management's assets and liabilities shall be in equal proportions attributed to the natural gas transmission and storage balance sheet.

The Spin-off Balance Sheet shall include other transferable equity reserves which at the time of preparation of the Spin-off Balance Sheet shall be calculated as difference between the transferable assets, transferable liabilities and the share capital of the Acquiring Company.

## **3. Real Estate**

The Company shall transfer to the Acquiring Company the real estate used by the Company's Operational Unit "Gāzes transports" as specified in Annex No. 1 to the Deed, and the real estate used by the Company's Operational Unit "Inčukalns Underground Gas Storage Facility" as specified in Annex No. 2 to the Deed.

The Company shall transfer to the Acquiring Company operational gas wells of Inčukalns underground gas storage facility that are registered as separate cadastral objects in the State Real Estate Cadastral Information System and specifically listed in Annex No. 3 to the Deed.

## **4. Motor Vehicles and Machinery**

The Company shall transfer to the Acquiring Company motor vehicles and their trailers registered with the State Joint Stock Company "Road Traffic Safety Directorate" and tractors and their trailers registered with the State Technical Supervision Agency, which are used by the Company's Operational Unit "Gāzes transports" (Annex No. 4) and the Company's Operational Unit "Inčukalns Underground Gas Storage Facility" (Annex No. 5) and the administrative staff of the Company transferred to the Acquiring Company (Annex No. 6).

## **5. Transferred Agreements**

The Company shall transfer to the Acquiring Company the rights and obligations arising from the agreements included in the electronic register “List of Agreements to be Transferred to TSO” approved by the Management Board of the Company.

## **6. Final Provisions**

Considering that during the period after adoption of the Reorganisation Decision until the execution of the Asset Delivery and Acceptance Deed the Company will continue its business operations, there may occur reasonable changes in the composition of the Assets listed in the annexes to the Deed (including in relation to construction and modernisation projects of natural gas transmission and storage facilities commenced by the Company) and, therefore, specific composition of the Assets to be transferred to the acquiring company shall be determined in the Asset Delivery and Acceptance Deed in accordance with the Spin-off Balance Sheet and its transcript.
