Construction Service

<i>EUR million</i>	12M 2019	12M 2018	Variance	Q4 2019	Q4 2018	Variance
Revenue	326.8	418.0	-21.8%	99.2	119.2	-16.8%
Construction service	256.7	347.1	-26.0%	52.7	96.6	-45.4%
Real estate development	70.1	70.9	-1.2%	46.5	22.6	+104.9%

- ❑ The decline in group's revenue was expected due to high comparison base of 2018, which included the construction of some very large projects
- ❑ Fewer commercial real estate sites are being built because of stiffer competition, construction prices have risen and financing conditions have become more complicated
- ❑ Fair and transparent pricing and balanced distribution of contractual risks between the contracting entity and the main contractor are essential for the group
- ❑ Ensuring higher construction volumes is not a goal onto itself. Revenue must be balanced against taken risks and estimated profitability

SECURED ORDER BOOK

in million euros

- ❑ Secured order book EUR 141m (31.12.2018: EUR 229m)
- ❑ Private sector orders constitute 36% of the order book (31.12.2018: 70%)
- ❑ Total new contracts signed during 12M 2019: EUR 170m (12M 2018: EUR 246m)
- ❑ Declining secured order book reflects the situation on the market: fewer commercial real estate sites are being built. In particular, the activity of private subscribers has declined considerably. The share of public sector orders has increased significantly, but still cannot compensate for the decline in private sector volumes
- ❑ The price competition on the main contracting market continues to be tight
- ❑ The greater caution exercised by banks as to selection of customers and projects for financing and the growth in loan margins are also having an increasing impact on the construction market

Real Estate Development

Group's central business line

- ❑ In 12M 2019, sold 482 apartments, incl. 47 in joint venture, and 24 commercial areas, (12M 2018: also 482, incl. 131 in joint venture, and 15 commercial areas)
- ❑ Revenue from sale of own developed apartments EUR 64m in 12M 2019 (12M 2018: EUR 41m)
In addition, there were 347 pre-sale agreements signed as of 31.12.2019 (193 on 31.12.2018)
- ❑ Construction of 368 apartments launched during 12M 2019 (12M 2018: 1,032) and EUR 87m invested in apartment developments (12M 2018: EUR 35m)
- ❑ As of 31.12.2019, 723 apartments on active sale without pre-sale agreements, of which 25% (182 apartments) completed
- ❑ Land for development acquisitions for EUR 19m in 12M 2019 (12M 2018: EUR 3m)
- ❑ Land plot portfolio of EUR 70m (31.12.2018: EUR 55m):
 - Estonia EUR 29m
 - Latvia EUR 27m
 - Lithuania EUR 14m

12 MONTHS' CHANGE IN CONSTRUCTION PRICE INDEX

percentages

Source: Local national statistical offices

- ❑ Construction market volumes in Estonia and Latvia remained unchanged in 2019, strong growth in Lithuania
- ❑ The construction volume index in Estonia about 10% greater than at the peak of the boom time, in Latvia and Lithuania still ca 20% lower
- ❑ The volume of building permits issued in Estonia increased, total volumes were just short of the 2017 peak. Increase in 2019 was likely partially due to stricter near-zero energy requirements for residential buildings kicking in starting from 2020
- ❑ In Latvia, the volumes of building permits for residential units declined in 2019, while new growth was seen in Lithuania
- ❑ The volume of building permits for non-residential space in Estonia has fallen back from its peak in the last years. Latvia has seen precisely the opposite – several years of continuous growth starting from a trough. Developments in Lithuania fall into an in-between area: the slightly positive trend seen for the past few years continuing at a relatively high general level
- ❑ The Norwegian construction market is continuing to grow at a stable 3% per year, as it has for several years now
- ❑ The construction prices continued rising in 2019: more than 4% in Latvia and Lithuania, almost 2% in Estonia
Employment cost component in Estonia ca +4%, in Latvia and Lithuania ca +8%

NEW AND ALL (dotted line) DWELLINGS QUARTERLY HOUSE PRICE INDEX (4 QUARTER ROLLING AVERAGE) (2013=100)

- ❑ In Estonia, the relatively steady growth in the volumes of permits for use has continued for about eight years, the peak of the last boom years exceeded in 2018
- ❑ In Lithuania, the volumes of permits for use have stabilized above the peak levels of the previous boom
- ❑ Latvia's overall volumes are lower compared to Estonia and Lithuania, but rise in market activity evident – the trend in permits for use has been positive for last two-three years, growth accelerating in 2019
- ❑ In Estonia and Lithuania, the dynamics of housing prices are essentially the same as they have been the past few years – prices are constantly rising and incomes are growing. In Latvia, housing prices for new dwellings returned to growth in 2019, having remained at the same level for some 1.5 years
- ❑ In all three markets, developments on the apartment market seem rather stable, a clear oversupply or price bubble cannot be seen
- ❑ As long as dynamics of incomes, unemployment level, inflation, and lending conditions remain more or less the same, there is no reason to expect a significant decline in the real estate market

Lahekalda apartment development in Tallinn

Construction for clients:

- ❑ Preferred partner for private customers who value reliability and quality
- ❑ Selective participation in construction tenders. Efficiency of bidding resources.
- ❑ Internal efficiency and cost savings, incl. with the help of technology. Continue with expanding the usage area of building information modeling (BIM)
- ❑ Flexibility also to construct smaller objects
- ❑ Construction tenders for infrastructure facilities

Development of residential real estate:

- ❑ Selling the best apartments of their price range: to cover different segments. Product development, based on pricing
- ❑ Continued focus on the capitals of the Baltic states
- ❑ Integral development concept for large development areas
- ❑ As a long-term average, launch 650-700 new apartments and invest ca EUR 60m annually. Actual volumes of each year depend on overall market developments and receiving building permits
- ❑ Ensuring investment capability
